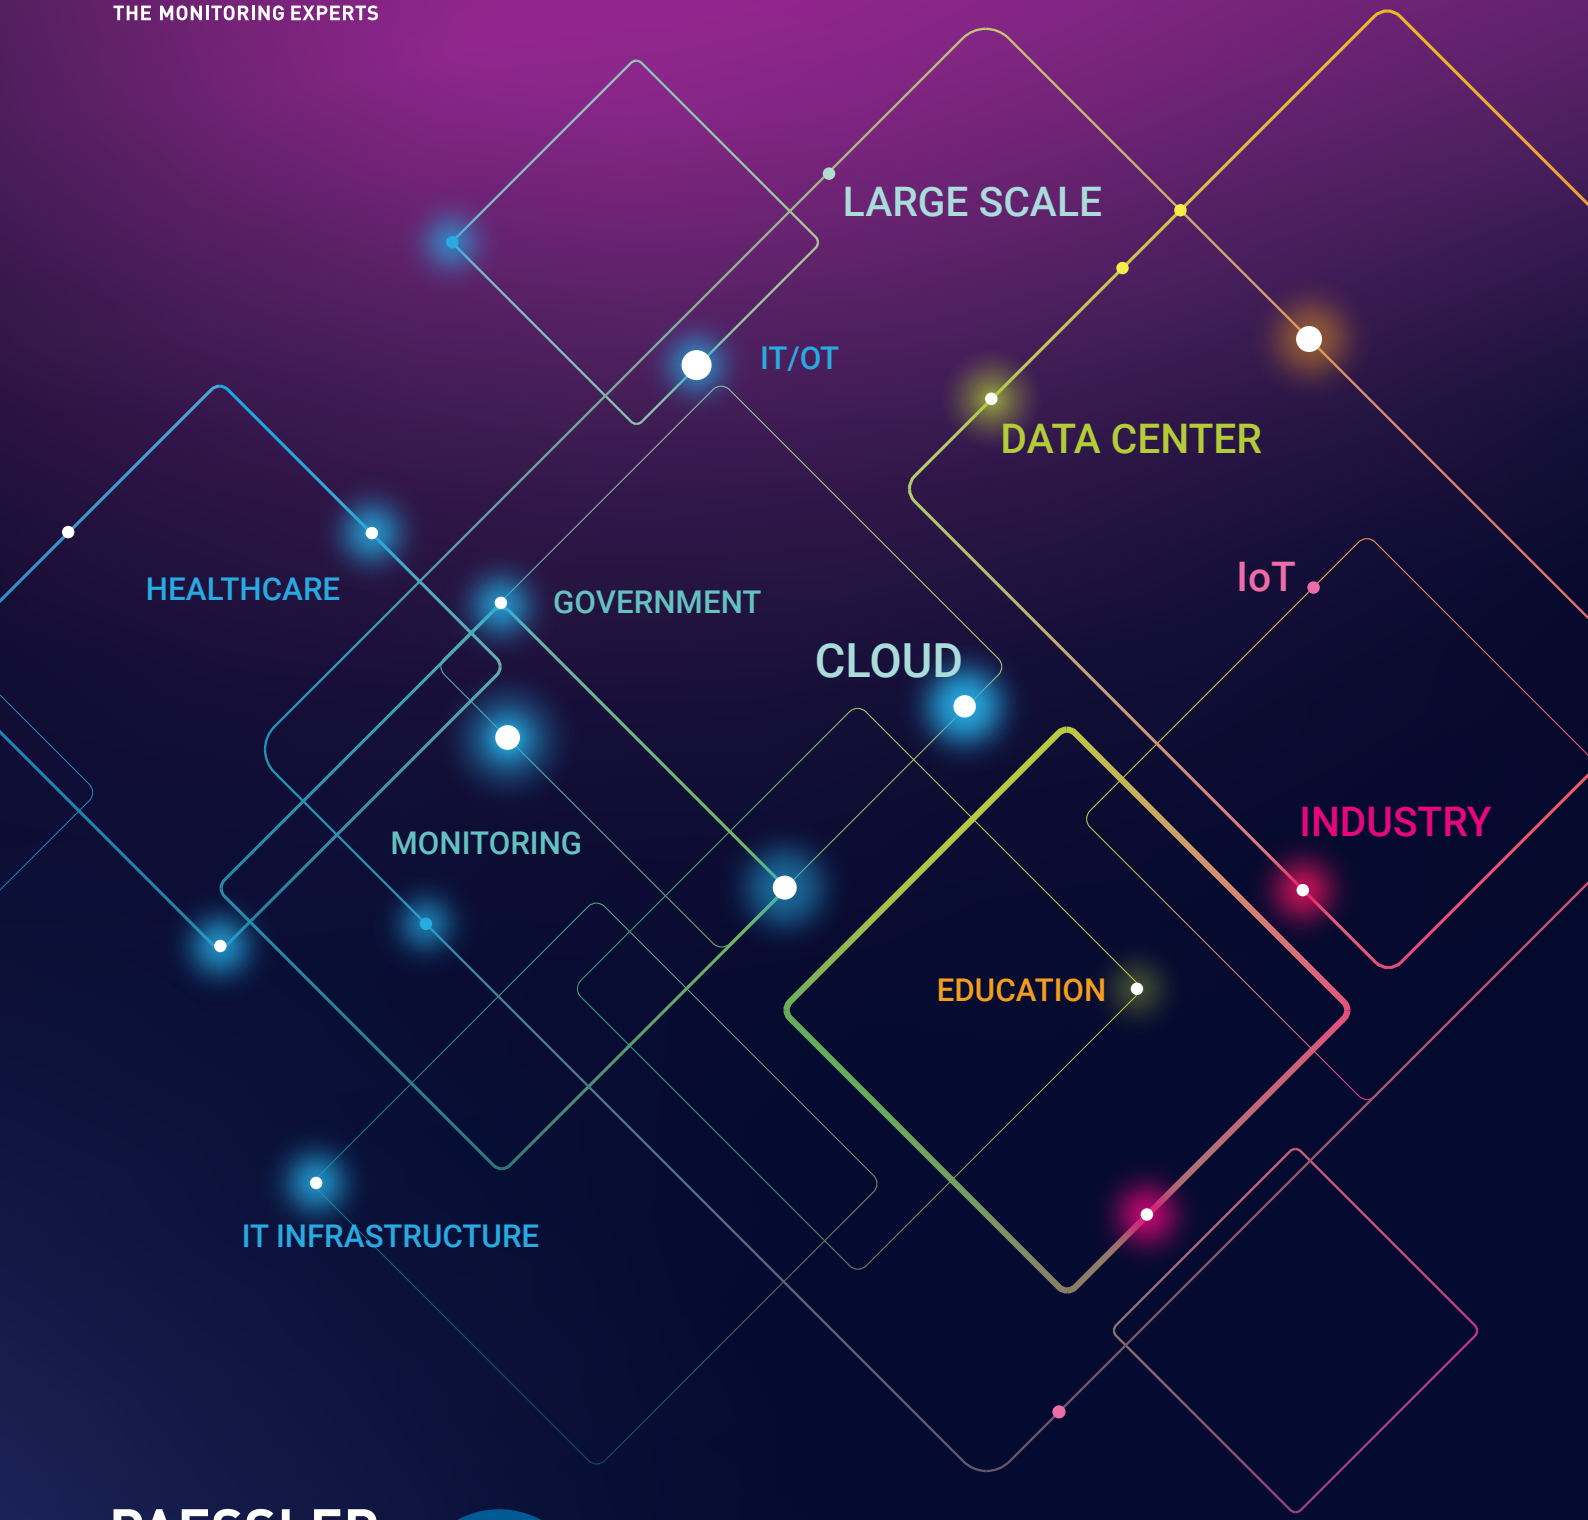
PAESSLER
THE MONITORING EXPERTS



PAESSLER PRTG

Monitoring for Cloud and Hybrid IT

Keep an Eye on Your Infrastructure – Anytime and From Anywhere

Discover the Benefits of IT, OT and IoT Monitoring With Paessler PRTG

Our solutions make it simple for our customers to keep their infrastructure up, running, and optimized.

Since 1997, we offer monitoring solutions for businesses of all sizes, from SMB to large enterprises, across all industries. Today, more than 500,000 users in over 170 countries rely on PRTG and other Paessler solutions to monitor their complex IT, OT, and IoT infrastructures. We believe monitoring plays a vital part in reducing humankind's consumption of resources.

Our products help our customers optimize their IT, OT, and IoT infrastructures, and reduce their energy consumption or emissions – for our future and our environment.

PAESSLER PRTG NETWORK MONITOR

The solution that brought the Paessler name into the spotlight. Use it to monitor small and midsize infrastructures.

Awesome maps and dashboards, flexible alerting, multiple user interfaces, in-depth reporting, distributed monitoring, and more.

PAESSLER PRTG ENTERPRISE MONITOR

Our specialized enterprise solution, best for large and very large infrastructures operating across multiple locations.

It's PRTG, but optimized for larger environments with powerful dashboards and support for monitoring business processes and SLAs.

PAESSLER PRTG HOSTED MONITOR

Focus on your infrastructure and leave the hosting to us. Billed monthly or annually and based on your individual usage.

Everything PRTG has to offer, made available to you from the cloud. There's no need for dedicated hardware.

PAESSLER PRTG

Your Objectives – Your Choice
Use PRTG from wherever you are

Extensions and Services to Expand Your Monitoring Even Further

PAESSLER PRTG OPC UA SERVER

Consolidate your IT and OT views

Paessler PRTG OPC UA Server brings monitoring data from your OT network and the IIoT into your control overview to give you centralized monitoring and alarms.

PAESSLER PRTG MULTI BOARD

Enjoy a central management of all your PRTG installations

Paessler PRTG MultiBoard is a native application exclusively for PRTG Enterprise Monitor that centralizes management of multiple PRTG servers.

PAESSLER PRTG DATA HUB

Advanced log management for your IT infrastructure

PRTG Data Hub centralizes log collection, filtering, and forwarding to support compliance, e.g. NIST or TISAX, and reduce your long-term storage costs.

PAESSLER PRTG SLA REPORTER

A sophisticated option to extend PRTG reporting features

Using real-time and historical monitoring data, Paessler PRTG SLA Reporter brings you advanced reporting capabilities for managing your IT service level agreements (SLAs).

PAESSLER PRTG DATABASE OBSERVER

Extend your database monitoring capabilities

Paessler PRTG Database Observer brings the possibility to monitor additional database types, such as SAP HANA and IBM DB2, with PRTG.

PAESSLER PRTG MULTI-CORE DASHBOARDS

Enterprise-level visualization for multi-server monitoring

Visualize data from multiple PRTG servers with powerful pre-configured dashboards for different stakeholders. Exclusively available for PRTG Enterprise Monitor customers.

Monitoring for Every Industry

- INDUSTRIAL MONITORING
- DATA CENTER MONITORING
- HEALTHCARE MONITORING
- EDUCATION MONITORING
- GOVERNMENT MONITORING

> "Insurance is a 24-hour business and we can't afford to have our data centres and applications down when our customers need help. Our technology is absolutely business-critical."
>
> Suresh Lakshmikanthan,
> IT System Administrator, AXA Gulf

> "We start managing the existing infrastructure to determine bottlenecks. Sometimes it is CPU, I/O or code-based problems. By using PRTG, we can save them from making bad decisions, saving headaches, time and money."
>
> Jon Berry, President and Owner
> Green Olive Tree

> "PRTG helps us do a better job than our competitors because we are able to monitor critical networks and react quickly before an issue spins out of control."
>
> Ethan Quint, Clair Global

ABOUT PAESSLER

Paessler recognizes the crucial role that monitoring plays in the efficiency and reliability of critical IT, OT and IoT systems. Since 1997, the company's flagship product, PRTG Network Monitor, has delivered the visibility organizations need to prevent downtime, reduce costs, and optimize performance across their infrastructure.

That's why more than 500,000 users in over 190 countries, including many of the world's most recognizable brands, trust Paessler to keep their networks running smoothly, allowing them to focus on building growth and maintaining their competitive advantage.
