DURAFLEX

Attachment Options: MOLLE for modular expansion, plus shock cord attachment system on the lid.

Weather-Ready Design: Drawcord snow collar for extra protection against the elements.

Hydration System Compatible: Designed to accommodate a hydration bladder for on-the-go hydration.

Versatile Removeable side pockets

Rugged Durability: 1000D Nylon, tough No. 10 self-repair zippers and Duraflex buckles for long-lasting reliability.

Spacious Storage: Large lower compartment, extended lid compartment, and generous side pockets for efficient gear organization.

Winter -Optimized: Walking pole and ice axe loops for extreme terrain adaptability.

Enhanced Load Management: Removable padded hip belt and adjustable sternum strap for superior weight distribution.

Engineered for elite performance, this tactical backpack is the ultimate companion for long-range operations and demanding expeditions.

Available in Black, Ranger green and new and improved HMTC

FRONT

The Pinnacle Packs allow for compartmentised storage with top and middle opening along with huge side, front and top pockets. The side pockets can be easily removed to give a slim silhouette. This narrow design allows for efficient movement in a wide variety of environments from urban to mountainous environments.

BACK

Featuring a padded adjustable back system, the Pinnacle pack offers supreme comfort and fit. The removable padded hip belt allows for customization and use-ful when storing and transport-ing. The adjustable sternum strap allows for a tight and secure fit to reduce pack movement when on the move.

SIDE

Large removable molle pouches run down both sides with additional Molle and webbing compression straps. The pack has side and top webbing grab handles for movement on and of vehicles. A lid bungee cord adds extra versatility to pack and carry gear.
