

Compliant AML and eIDAS 2.0 customer onboarding, eliminating video calls and waiting times

PXL GwG Ident is a fully EU law-compliant onboarding solution that can be integrated into your financial services processes and adapted to your corporate identity.

- ✓ Developed for banks, fintechs, financial service providers, crypto companies and insurances.
- ✓ Tailored to your specific case, security level and business logic.
- ✓ Compliance aligned with eIDAS 2.0 and AMLR regulation mandatory from July 2027. Expandable to MiCAR.
- ✓ REST API integration for rapid deployment & long-term scalability.
- ✓ Premium audit-ready evidence data package (visuals, logs, timestamps) to support audits and real-time decisions.
- ✓ Modular setup ready to match your process requirements (including NFC/QES).
- ✓ EU data management and hosting.
- ✓ Elevated UX for highest conversion rates.

From QES signing under eIDAS 2.0 to digital onboarding, account opening, and BNPL, PXL GwG Ident fits the full range of use cases.
