

Processing & Facilities:

Kafa International's main goal to provide great quality Pet Treats & Chews all across the globe.

We have separate department (i.e. drying, Quality Control, packaging & Storing packed boxes. This ensures the quality of the pet treats & Chews (fresh, no decomposition, no purification) at the time of processing & packing. The advantage of the same is high quality products.

Our products go for lab testing under one of India's best ISO Certified Lab testing Company (SGS India Pvt. Ltd.) & are irradiated with minimum 8-10 kGy dosage by Indian Government approved radiation Centre which ensure our promise of best offering for your loved ones.
