

ROTARY DRUM DRYER

■ ROTARY DRUM DRYER

Drying is one of main scope of RTK. RTK have deep engineering substructure, know-how and experience on drying. We make complete solutions for drying including material handling, screening, storage to automation. Filtering is also important part of drying and our filtering solutions are very reliable. Some materials to dry: sand, GBFS, anthracite coal, gypsum, calcite, and similar products; and food and agricultural products.
