

TurfSoft TS1 DC

PASSION FOR SPORTS GROUNDS

Machine for the cleaning and care of artificial turf.

The **TurfSoft TS1 DC** has been specifically designed for the regular top-layer cleaning and maintenance of **padel courts** with typical turf fibre lengths of 10-15 mm.

Its **powerful main brush** effectively removes suspended particles, abrasion, and dirt, while two side brooms thoroughly clean the edges.

A **vibrating sieve** collects dirt and worn fibers, filters the sand, and returns it to the playing surface.

The integrated **dust filter** meets DIN EN 60335-2-69 / Dust Class „M“ and EN 779 „F8“/“F9“ standards, capturing even the finest dust and microplastic particles.

With a cordless **battery-powered** operation, the TurfSoft TS1 DC is highly flexible and easy to handle.

Additionally, the modified vibrating sieve can be closed, allowing the machine to be used not only on the court but also for **cleaning the surrounding areas**.

At the same time, the machine is ideally suited for cleaning all types of **Pickleball court** surfaces.

The **machine geometry** and **brush system** are optimized for shorter artificial turf, which is why use on turf types with longer fibres is not recommended.

With the **TurfSoft TS1 DC**, regular court maintenance can be carried out reliably – ensuring consistently **high playing quality** and preserving the **long-term value** of the court.

TurfSoft TS1 DC

TurfSoft TS1 DC

PASSION FOR SPORTS GROUNDS

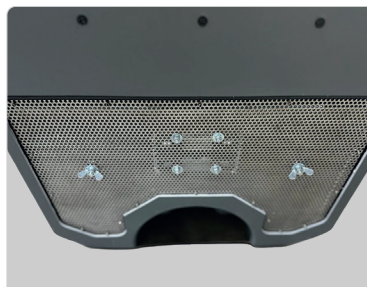

Functional

The powerful rotating brush effectively removes suspended particles, abrasion, and dirt.

Precise

Two hinged side brooms remove dirt even from hard-to-reach areas.

Effective

The vibrating sieve collects dirt and worn fibers, filters the sand, and returns it to the playing surface.

User friendly

Clearly arranged control elements.

Filter

The integrated dust filter complies with DIN EN 60335-2-69 / dust class "M" and EN 779 "F8"/"F9".

Item No. 3300137

Drive	36 V electric motor
Working width	480 mm (980 mm with both side brooms)
Weight	38 kg
Dimensions	L 1,200 x W 770 x H 925 mm
Shipping dimensions	L 1,080 x W 800 x H 500 mm

Subject to technical changes.

Electric

Thanks to its cordless battery operation, the TurfSoft TS1 DC is flexible and easy to handle.

Compact

Angle-adjustable and foldable steering arm for easy transport and compact storage.
