

# THE NEW FORCE IN URINE STAIN & ODOUR REMOVAL

## ATTACKS URINE AT THE MOLECULAR LEVEL

Urine and its associated stains and odours are notoriously difficult to eliminate with regular household cleaning products.

**CSI URINE®** has unique formulations that contain fast-acting free enzymes *plus* long-acting micro-organisms to eliminate old and new stains and odours.

THE EXPERTS  
**CSI URINE®**  
STAIN & ODOUR REMOVER

What is it?

### THE SUSPECTS

**CSI URINE®** is a range of enzymatic stain & odour removers and probiotic cleaners that deals with pet urine in a different way to regular cleaners.

With formulations available for specific pets and specific surfaces **CSI URINE®** has the power to leave your home *Forensically Clean®*.

#### Exceptional Anti-Odour Efficacy:

- Bio-enzymatic spray
- Fast acting
- For all hard & soft surfaces

#### Cleaning plus Odour Elimination:

- Fast-acting & long lasting
- With enzymes, probiotic micro-organisms, and surfactants
- Works on old & new stains
- Superior cleaning & odour control

#### Doubles litter life:

- Bio-enzymatic spray & granules
- Doubles life of litter
- The complete tray & litter treatment

#### The Problem with Ordinary Cleaners

- Regular supermarket cleaners do not work well on the three main components of urine
- Harsh chemicals like bleach and deodorisers do not attack urine at its source
- They leave urea and uric acid that emit foul odours and attract pets to re-mark
- They are hazardous to pets & humans and often damage surfaces

#### CSI URINE® is No Ordinary Cleaner

- CSI URINE® uses smart science, not harsh chemicals
- It works on both new stains and old set-in stains
- It prevents pets from re-marking
- It works without scrubbing
- It is 100% biodegradable and non-hazardous
