

AperturesConnect

The AI-Powered Data Platform
for the **Apertures Industry**

Powered by HippoScripts

From first measurement to final installation, one platform to run your entire windows and doors business.

In the **windows** and **doors** industry, speed, precision, and visibility are non-negotiable. Yet many manufacturers and dealers still rely on outdated workflows, fragmented systems, and manual processes.

AperturesConnect changes that.

We **unify** your CRM, ERP and operations into one **intelligent platform** — purpose-built for the manufacturing, supply, and installation of windows, doors and blinds.

What makes **AperturesConnect** different?

- ✓ Built for the apertures sector — PVC, wood, aluminium or hybrid: our platform mirrors the real workflow of your factory and dealer network.
- ✓ AI at the core — Smart quoting, demand forecasting, job tracking and analytics are powered by our AI engine.
- ✓ Modular and scalable — Start small, grow as you go. Activate only the features you need.
- ✓ Cloud-based and secure — Hosted on Microsoft Azure and ISO 27001 certified, ensuring precision, reliability and data security.
- ✓ All-in-one visibility — From first contact to after-sales, manage everything in a single platform.

CORE FEATURES POWERED BY AI

Smart On-Site Measurements

Capture measurements directly on-site using dynamic configurators. No paperwork, no errors — just clean data ready for quoting and production.

AI-Powered Quoting & Forecasting

Generate accurate quotes in seconds and predict project timelines with intelligent forecasting. Close deals faster with pricing that adapts in real time.

Real-Time Dashboards & Reports

Make smarter decisions with live performance dashboards, sales insights, and job tracking — all driven by AI and business logic.

Workflow Automation & Scheduling

Automate appointments, emails, and approvals. From e-signatures to SMS reminders, streamline every step — from quote to install.

Seamless Integrations

Integrates with tools like Opera, Xero, Sage, Zoho, QuickBooks, and Shireburn for full end-to-end automation — from CRM to ERP to production.

TECHNOLOGIES WE USE

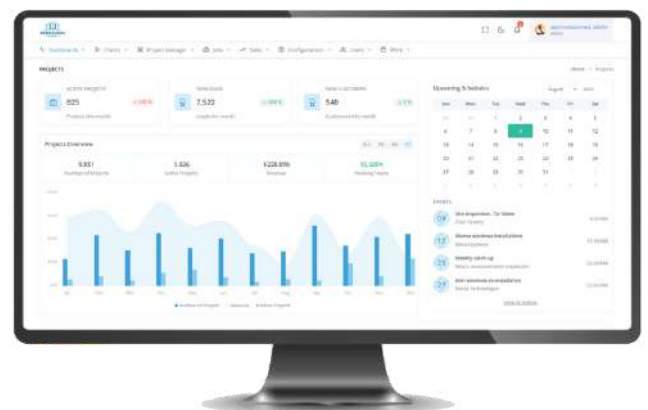

Azure AI Search

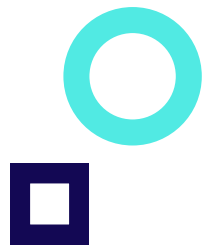

Grow at your own pace with expert support

AperturesConnect is a modular, **AI-powered data platform** that scales with your business. Start small and expand as you grow, all backed by 99.999% uptime on Microsoft Azure.

We provide hands-on training, intuitive guides, and ongoing support to help your team work faster, smarter, and more efficiently.

Join **leading** manufacturers and dealers who rely on **AperturesConnect** for innovation, efficiency, and operational **transformation**.
