SAI Company Presentation

For nearly half a century, Small Arms Industries has been a leading designer and manufacturer of small arms accessories, such as light weapons and suppressors to security forces, police, special forces worldwide, and NATO and NATO-associated states. Small Arms Industries is headquartered in Aarhus, Denmark.

Our reputation for quality, innovation, and safety makes us a recognized leader in the development of technologically advanced products. And the long-term durability of all our products makes them especially cost-effective when subjected to total life cycle cost analysis.

- Since 2007 SAI has been granted approval by the Danish Ministry of Justice for the production of all types of hand held weapons for civilian/military, including full automatic weapon systems. SAI has also been granted approval to produce suppressors, spare parts and ammunition for the aforementioned weapon types, including NATO certified variants.
- SAI also undertakes service and maintenance of government firearms and participates in industrial development programs, upgrading existing firearms systems.
