

FENCE ||||| PRO

Company profile

FencePro d.o.o. — fence systems manufactured in
Türkiye and supplied from the European Union.

Edition September 2026

FencePro

FencePro d.o.o. is the European company of SNG Plast, a Turkish manufacturing group. We supply rigid fence panels, posts, gates, privacy slat kits and accessories manufactured in Türkiye, and we contract and invoice from inside the European Union.

Who we are. A company registered in Vukovar, Croatia, carrying the fence brand of a group with experience in plastics since 1977. The group manufactures in Türkiye: plastics on SNG Plast's own lines, steel fence systems with production partners under manufacturing agreements.

What it means for a buyer. One company in the European Union to contract with, quotations and invoices in euros, and a manufacturing group behind it.

How we work. Quotations, orders and invoices come from FencePro d.o.o. The group schedules production and exports the goods from Türkiye; for European customers it also holds stock in France.

EU company · Vukovar, Croatia

OIB 03095701819 · VAT HR03095701819

Quotations and invoices in EUR

Manufactured in Türkiye — own plant and production partners

Plastics: experience since 1977 · 600 t a month

1,602 catalogued references in eight product groups

Stock in France: 800 m² indoor on a 2,000 m² site

One group, three companies

Manufacturing in Türkiye, trade in the European Union, stock and retail in France. Each company does one job, and all three work from one product catalogue.

01 HOW AN ORDER RUNS ONE CONTRACT, ONE INVOICE

- 1 **Enquiry** — to FencePro d.o.o.
- 2 **Quotation** — issued by FencePro d.o.o., in EUR
- 3 **Order** — placed with FencePro d.o.o.
- 4 **Production** — in Türkiye, at the group's plant or a production partner's
- 5 **Export** — inspected, documented and shipped by the group, from Türkiye
- 6 **Invoice** — from FencePro d.o.o., an EU company

Production

FencePro fence systems are manufactured in Türkiye — by SNG Plast and by production partners working for the group under manufacturing agreements.

Steel fence systems. Rigid panels, posts and gates are made by production partners in Türkiye, under manufacturing agreements with the group, and sold under the FencePro brand. The plant on these pages welds the mesh, fabricates profiles and gates, powder coats and dispatches.

Plastics. Extruded and injection-moulded on SNG Plast's own lines in İstanbul.

From order to export. The group places the production orders, inspects the goods before dispatch and handles export documents and shipping from Türkiye.

Partner steel plant: 13,000 m² of production and dispatch

Mesh welding on two German-built IDEAL lines

Powder coating line, 260 m long

Steel zinc galvanised, then polyester powder coated

Plastics: SNG Plast's own lines, İstanbul

Goods inspected by the group before dispatch

Factory visits on request

STEEL FENCE SYSTEMS · PRODUCTION PARTNER, TÜRKIYE

Steel fence production

Panels, posts and gates are made for the group by production partners in Türkiye, under manufacturing agreements. The plant on this page covers the whole chain: mesh welding, profile and gate fabrication, powder coating and dispatch.
