

UNLIMITEDTM AMMO

COLLECT YOUR GAME.

Unlimited Ammo is a Finnish brand specializing in high-performance, non-toxic shotgun cartridges for a wide range of hunting purposes.

Our premium shot material is made from high-density, non-toxic UnA-Tungsten, delivering up to 70% greater effectiveness compared to traditional shot materials.

Today, the UnA portfolio includes 25 completely lead-free cartridges, utilizing materials such as wolfram (TTS18), steel, copper, bismuth, and carefully selected material blends.

Our latest innovation is UnA C-UAS, an Unmanned Aircraft System defense cartridge developed for military and law enforcement use.
