

WATERGAS

HIGH-PURITY CARBON DIOXIDE E290

FOOD & BEVERAGE INDUSTRY — THE PRACTICAL SOLUTION FOR SPARKLING WATER

PRODUCT OVERVIEW

MARIEL S.r.l. offers high-purity Carbon Dioxide E290, available in practical disposable cylinders of 600 g and 1.3 kg. These are ideal for producing sparkling water through water dispensers and delivery systems.

E290 is a high-quality gas perfectly suited for use in the food and beverage industry, ensuring effective, consistent, and reliable carbonation.

ADVANTAGES OF THE DISPOSABLE FORMAT

The disposable format represents a highly practical solution: once the cylinder is empty, simply replace it with a new one. This eliminates the need to take the container for refilling, significantly reducing processing time, travel, and operational downtime.

- **Simplicity & Convenience:** Immediate replacement without complex tools.
- **Continuity of Use:** No operational downtime in both domestic and professional settings.
- **Quality & Safety:** A cylinder that is always brand new, clean, and guaranteed.

TECHNICAL DATA SHEET SUMMARY

Product	WATERGAS CO2 E290
Gas	Carbon Dioxide (CO2)
Purity	100% Natural (Food Grade E290)
Formats	600 g (Volume 1L) / 1,3 kg (Volume 2L)
Container	Disposable Cylinder (Non-refillable)
Application	Water dispensers, Water coolers, Beverage systems

E290: SIMPLE. PRACTICAL. INSTANT.

A ready-to-use cylinder that can be replaced when empty, without wasting time on refilling
