VENTILATION

EOS **EWS**
Large diameter exhaust fans with automatic shutter

EOC
High-performance cone exhaust fan

EWD **ERD**
Direct driven exhaust and circulation fans

EOR **FJT**
Large diameter circulation fans

BKF **ADF**
Circulation fans specific for dairy/cattle farming

HEATING

agriTERM
Direct-fired gas heater

easyTERM
Direct-fired gas heater for internal and external installation

combiTERM
Indirect-fired air heater

F-OTB
Direct-driven jet fan with hot water radiators

ACF
Cylindrical air mixing fan for heat destratification

COOLING

PERIcool **PLAScool**
Evaporative cooling pads made of paper or plastic

MFP
Gutter frame system for cooling pads

MDFX
Metal frame system with tank-gutter

PERIcooler
Evaporative cooler

RWA
Water atomizer

G-LINE

G EOS
State-of-the-art brushless motor direct-driven exhaust fan

G EOC
State-of-the-art brushless motor direct-driven cone fan

G EOR
State-of-the-art brushless motor direct-driven circulation fan

The topic of **sustainability** is becoming a crucial purchasing criterion – not only for our customers but for their final clients as well.

Today, the requirement for a valid product is strictly joined to the environment protection.

More and more countries impose rules for **animal welfare**, reduction of emissions, and **energy consumption.**

Even where such regulations are still absent, Termotecnica Pericoli keeps the same standards, for a cleaner and better global world.

ACCESSORIES

SOB
Motorized air inlet

RL
Gravitation air inlet

LTP
Light trap for fans or air inlets

PERIdark
Light filter for wide surfaces or cooling walls

PERIcurtain
Curtain system for livestock buildings
