

B200 (XL)

THE AUDIENCE FAVOURITE

B200 (XL)

THE AUDIENCE FAVOURITE

The B200(XL) is our most complete and versatile pergola with extensive personalisation options. This automated louvered roof allows you to adjust the louvers' position to your preferred amount of light at all times of day. The frame is available in large sizes and various configurations, and can be adapted fully to the dimensions of your terrace.

SPECIFICATIONS

- Stand-alone, lean-to, L-configuration or star configuration
- Integrated drainage inside posts
- Can be coupled along length or width
- The best possible protection and more privacy thanks to the integrated ZIP screens (optional)

BENEFITS

- ✓ Multiple configuration options
- ✓ Most versatile patio cover on the market
- ✓ Limitless selection of options

B200

- Tiltable louvers of 16 cm wide
- **Optional:** Dimmable white LED lighting in louvers

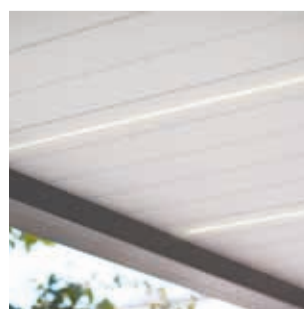

B200 XL

- Tiltable louvers of 21 cm wide
- **Optional:** Dimmable white or RGB LED lighting in louvers

OPTIONS

Dimmable LED lighting

The LED strips in the louvers give a beautiful light. Furthermore, they are dimmable. LED spots are dimmable and possible in the intermediate beams and the frame on all sides. Both white and RGB direct and/or indirect light on the gutters is possible.

Patio heating

Powerful patio heating (2000 W or 2200 W) for cool evenings. You can combine different elements in one module. Available in black, white and anodized. (depending on model).

Bluetooth speaker

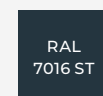

Electrical socket in pole

Integrated screens

Colours

* B200XL only

*

*

All other RAL colours optionally available

All data is still subject to change.

Bluetooth speaker

Splash-proof IP65 Bluetooth speaker available in black or white.

Integrated electrical socket

Splash-proof IP54 electrical socket on inside and outside.

Integrated screens

Integrated screens are possible on all sides. This both for a stand-alone construction and in a wall installation. Thanks to the Bruster Smart-Fix solution, the screens can be elegantly mounted on the wall side, without ostentatious poles. You have the choice between a wide range of colors and transparency of the screen fabric.

Door pole

An additional door pole is possible to spread your integrated screens over the width and thus retain a door opening. For large versions with a double roof this may sometimes be necessary as support.
