

Circular Textile-Based Packaging — Branded

Upcycled textile solutions to protect products during transport, storage, and distribution — replacing plastics, supporting compliance.

Coffee Machine Scratch Protection Bag

Duvet Protective bag

Trusted by 200+ brands, including Nespresso, Coco Padel, and Medituner. Together, we've saved up to 9,000 tons of CO₂ by upcycling 1.3 million products since 2017.

A Pilot for You

Protect, cover and carry your products. Strengthen your brand. Keep advancing your sustainability leadership. Let's explore and co-create a tailored, reusable packaging.

Reused Remade upcycles discarded hotel textiles into reusable packaging

Scratch and scuff protection

Barrier against dirt, dust, and impacts

Durable and easy to clean

Smart for internal logistics and urban distribution

Heavy-duty durability

Impact Example

- Compliant with EU PPWR
- Reduces packaging emissions
- Fits into existing supply flows
- Supports sustainability goals
- Enables branded, circular packaging
- Avoids generating waste

- 5x lower CO₂ than virgin textiles*
- No extra water or chemicals*
- Lower impact than plastic after 2 uses*
