Europeer Exchange GmbH Signs Exclusive Reseller Agreement with eSIX Limited

Europeer Exchange GmbH is pleased to announce the signing of an exclusive reseller agreement with eSIX Limited. This partnership enables Europeer to distribute the innovative eSIX products in Germany and the Central Asian countries.

eSIX's **Software Defined Metro (SDM)** and **IPfiber** technologies unify Metro Ethernet, 5G, 4G, Wi-Fi, and broadband into a secure, scalable network. Their solutions—including ruggedized **Xatellite CPE** devices and the **eBrain Controller**—deliver reliable, cost-effective connectivity for industries, smart cities, and enterprises by enabling seamless Ethernet-over-broadband and robust network management.

“We are excited to collaborate with eSIX and provide our customers in Germany and Central Asia with access to their high-quality products,” said **Vitali Strasser**, Managing Director of Europeer Exchange GmbH. “This partnership strengthens our position as a leading provider of technology solutions in the region.”

Kinson Chan, CEO of eSIX Limited, added: “Partnering with Europeer Exchange GmbH allows us to bring our award-winning SDM and Xatellite products to new markets. We look forward to enabling more organizations to modernize their networks and accelerate digital transformation.”

Both companies look forward to a successful collaboration and to achieving their shared goals.
