

We specialize in the design and manufacture of small-size displays, including OLED displays, TFT LCD displays, e-paper (E-Ink) displays, and touch panels. Our products are widely used in consumer electronics, industrial equipment, smart home devices, medical instruments, IoT applications, wearable devices, and other fields.

In addition to our standard product range, we also provide customized display solutions to meet our customers' specific requirements. Customization options include display size, resolution, interface, brightness, FPC design, touch panel structure, cover lens, bonding technology, and mechanical design.

With stable quality, competitive pricing, and flexible service, we are committed to supporting our customers in developing innovative products and achieving business success.
