

EST

BATTERY STRAPPING TOOL

- Optimally balanced
- Modern design
- High quality & durable
- Three operating modes: automatic, semi-automatic and manual
- Soft tension mode
- Unbeatable price-performance ratio!

• Easy handling

The EST hand tool has a simple control panel that allows the strapping parameters to be set quickly and conveniently depending on the packaged goods.

• All-round talent

The EST can be used for universal strapping applications with PP and PET strapping in widths of 13mm and 16mm.

• Reliable and favourable service

All spare parts are permanently in stock and considerably cheaper than comparable competitor products.

• Enduring performance

With up to 800 strappings per battery charge, the EST sets standards in its class!

TECHNICAL DATA

MATERIAL	for PP & PET
STRAP WIDTH	13-16mm
STRAP	0.5mm - 1.05mm
THICKNESS	400-2800N
TENSION	Friction welding
FASTENER	4.2kg incl. battery
WEIGHT	335 x 150 x 145mm
DIMENSIONS	
SCOPE OF DELIVERY	Device, battery, charger, instructions, tool set, strap guides
WARRANTY	1 year
BATTERY	18V - 5Ah Li-Ion
CHARGING TIME	90 minutes
PERFORMANCE	600-800 strappings per battery charge

*Transport case available as an accessory
