1 METEC
Digital Tape Measure with Laser Distance Meter

Digital tape measure (5 m) and laser distance meter (20 m) combined in one device. Bluetooth data transfer to the SOLA Measures app on a smartphone or to a PC via the SOLA Data Connector.

2 PRO-TMS
Stainless Steel Tape Measure, 4 m

Made of stainless steel for demanding applications – corrosion-resistant, robust, and durable.

3 PROTECT DS
Tape Measure, 5 m

Nylon-coated tape with double-sided scale and dual end hook.

4 RCB
Remote-Controlled Laser Base

Robust laser base with radio remote control (30 m) for precise alignment of horizontal and vertical laser lines; flexible use on floors, tripods, or wall mounts.

5 METRON 60 BTI
Laser Distance Meter, 60 m

Upgrade to the METRON 60 BT. Now with 10 instead of 8 measurement functions – new features include a painter function and an integrated tilt sensor.

6 CLAS
Chalk line reels, 30 m

With viewing window and geared winding mechanism for up to 6x faster line retrieval.

7 PBM 2/10 W
Folding rule, 2 m

10 segments, made of selected beechwood, white lacquered, with 90° locking function and angular scale on the third and fourth segment.

8 SRA 300
Carpenter's Square, 300 mm

Lightweight, robust aluminum square with scribing holes and angle markings, integrated scribing needle, and extendable grip support for stable positioning.

9 TDS 18
Triangle Square, 180 mm

Multifunctional square with double-sided scales, drill gauges (3.5 to 16 mm), and removable stop.

Tool for precision work.

SRA 300 Carpenter's Square, 300 mm

- Extendable handle rest for stable grip and precise work
- Scribing holes in 5 mm increments for exact, parallel lines
- Angle markings at 10°, 15°, 20°, 30°, 50°, 60°, 70°, and 80°
- Integrated scribing needle for precise markings and accurate positioning of the square
- Stop surfaces for exact 90° and 45° markings
- Double-sided laser-engraved scale – high contrast and easy to read
- Robust steel blade with lightweight aluminum handle
- Abrasion- and dirt-resistant coating

TDS 18 Triangle Square, 180 mm

- Combination of angle gauge, ruler, drill gauge, and marking gauge in one
- Integrated drill guide with 14 holes for diameters from 3.5 mm to 16 mm
- Removable stop edge for full-surface support on the workpiece
- Precise angle measurements from 0° to 90°
- Scribing aid for accurate transfer of parallel lines
- Double-sided laser-engraved scales – high contrast, abrasion-resistant, and permanently easy to read
- Robust aluminum construction, CNC-milled, dimensionally stable, with durable anodized finish

METEC
Digital Tape Measure (5 m)
with Laser Distance Meter (20 m)

- Two measuring modes in one device: digital tape measure and laser distance meter
- Measurement functions: length, min/max, continuous measurement, area, volume, indirect 2-/3-point measurement
- Memory for 50 measurements
- High accuracy: ± 2.0 mm (laser), ± 1.5 mm (digital tape)
- Metric and imperial units
- Selectable reference point (front/rear edge)
- Bluetooth data transfer to the SOLA Measures App or to PC via SOLA Data Connector

Measure and mark lengths.

METRON 60 BTI
Laser Distance Meter, 60 m

- Upgrade to the METRON 60 BT with 60 m range
- 10 measurement functions: length measurement, min/max measurement, continuous measurement, area measurement, painter function (new), volume measurement, automatic distance measurement (new), indirect 2-/3-point measurement, addition/subtraction
- Inclination sensor for leveling and angle measurement
- Memory for 30 measurements
- Bluetooth data transfer to the SOLA Measures App
- Fold-out end piece for measurements from outer edges

PRO-TMS & PROTECT DS Tape Measures

- PRO-TMS (4 m): Stainless steel blade and recoil spring – ideal for wet environments
- PROTECT DS (5 m): Double-sided printed scale, dual end hook, durable nylon coating
- Anti-reflective blade with precise blade brake
- Non-slip, shatterproof housing
- End hook with groove

PBM 2/10 W Folding Wooden Ruler, 2 m

- Selected beech wood for high hardness and strength
- 90° angle lock at the hinge
- Printed angle scale from 8° to 150° for quick reading and transfer of angles
- Internal joints for continuous scaling
- Hardened, wear-free spring steel joints for long service life
- Highly abrasion-resistant, dirt-repellent, and moisture-resistant protective coating

CLAS Chalk Line Reel, 30 m

- Lightweight and robust aluminum die-cast housing
- Viewing window for quick checking of chalk level
- Line rewinds 6 times faster
- Crank made of hardened steel
- Integrated storage for hook
- Also available as a set with red or blue chalk powder

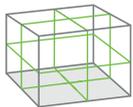

Align laser lines precisely.

RCB Remote-Controlled Laser Base

- Precise, contactless laser line alignment via remote control (range up to 30 m)
- 360° rotation clockwise or counterclockwise for aligning the vertical laser line – selectable in three speed settings
- Fine adjustment of the horizontal laser line up to 20 mm
- Usable on the floor, tripod, or magnetic wall mount (included)
- Compatible with 1/4" and 5/8" laser threads
- Rechargeable battery via USB-C

PLANO 3D GREEN RCB Set 360° Line Laser

- Two vertical 360° and one horizontal 360° green laser line, individually switchable
- Working range up to 80 m (radius) with hand receiver
- Self-leveling with an accuracy of ± 0.30 mm/m within a $\pm 3^\circ$ range
- Switchable tilt function
- Switchable pulse function for use with the optional REC LGD0 receiver
- Set includes PLANO 3D with accessories and RCB with accessories in a practical carrying case
