comfy Appétit MoNo

High in moisture (approx. 80%)

The high water content makes the food even more toothsome for pets, as it supports adequate hydration, and kidney and urinary function as well.

Simple, natural recipe

The aromatic and filling Comfy Appétit meat pate contains **no preservatives, flavour enhancers, cereals or artificial colours**. This gluten-free, easily digestible product positively promotes the fitness, healthy skin and beautiful coats of dogs of all breeds.

Suitable for dogs with health problems

Comfy Appétit Food has been developed to **meet the needs of dogs with food sensitivities**. It will work perfectly for pets with allergies, those under testing for gastrointestinal disorders and on elimination diets. Its texture makes it ideal for dogs with difficulty chewing.

100% BEEF

COMFY APPÉTIT MONO BEEF

Valuable ingredients

Beef is an excellent source of easily assimilable protein, iron and numerous vitamins (especially A, E, D and B vitamins)..

Energy and regeneration

The nourishing food increases your dog's physical performance and muscle strength, as it improves metabolism.

Tastiness and nutritional value

Liver is an excellent source of iron, beef lungs will provide your dog with zinc and selenium, and hearts – with micronutrients to support digestion. Offal and beef is a very appetising composition for dogs.

Ingredients

Beef 96% (lungs, liver, hearts), Minerals, Xylose.

100% LAMB

COMFY APPÉTIT MONO LAMB

Easily assimilable high-digestibility protein

Lamb contains easily assimilable, high-digestibility protein, essential in a dog's diet for hormone production, and tissue growth and regeneration as well.

High iron, copper and vitamin B₁₂ levels

These have beneficial effects mainly on the immune cardiovascular and nervous systems. A diet that is rich in liver provides your dog with adequate amounts of iron and an array of vitamins, minerals and high-quality protein as well.

Source of unsaturated fatty acids

Their role is key to maintaining healthy skin and a shiny coat.

Ingredients

Lamb 96% (meat, liver) 96%, Minerals, Xylose.

100% VENISON

COMFY APPÉTIT MONO VENISON

Lean and easily digestible meat.

Venison is rich in highly digestible protein and natural iron, supporting muscle development, red blood cell production, and regeneration.

A source of valuable minerals and vitamins.

Venison contains zinc, selenium, and B vitamins that support immunity as well as skin and coat health.

Safe for allergy-prone dogs

Game meat is naturally well tolerated, even by dogs with food sensitivities. Venison protein is considered hypoallergenic, making it ideal for dogs with sensitive digestive systems.

Ingredient:

Venison 96% (meat), minerals, xyllose.

100% TURKEY

COMFY APPÉTIT MONO TURKEY

Delicate and easily digestible meat

Turkey meat is gentle on the stomach and well tolerated, even by dogs with sensitive digestive systems. It contains high-quality protein with low fat content – ideal for dogs with food sensitivities, for muscle building, and fast recovery. Also suitable during convalescence.

Vitamins and minerals supporting immunity

Turkey is rich in B vitamins (including B6 and B12), zinc, and selenium – ingredients that support the immune system, metabolism, and body regeneration.

A safe choice for allergy-prone dogs

turkey meat rarely causes allergic reactions, making it an excellent main ingredient for elimination diets.

Ingredient:

Turkey 96% (meat), minerals, xylose.

Product Analysis:

100% SEA BASS

COMFY APPÉTIT MONO SEA BRASS 100%

Natural source of omega fatty acids and trace elements

Sea bass meat is rich in omega-3 and omega-6 fatty acids, which support skin health, give the coat shine and elasticity, and benefit the heart, brain, and immune system. It also contains naturally occurring trace elements such as iodine, which supports thyroid function.

Easily digestible protein

Fish is light on the stomach and provides high-quality protein that is gentle and well tolerated by dogs with digestive issues or sensitive gastrointestinal tracts.

Skin support

Fish protein rarely causes allergic reactions, making sea bass an excellent base for elimination diets. Regular consumption may reduce itching, dry skin, and support skin regeneration in dogs with skin conditions.

Ingredient:

Sea bass (meat) 96%, minerals, xylose.

Product Analysis:

crude protein – 7.0%,
crude oils and fats – 5.2%,
crude ash – 2.9%,
crude fibre – 0.4%,
