

THERAPY VET IA

The new **Therapy Vet IA from DMC** revolutionizes clinical practice with an intelligent system that automates protocols and optimizes each application.

Greater precision, less time, and consistent results in every session.

DMC's intelligent laser,
powered by
Artificial Intelligence.

Clinical precision applied to laser therapy.

- Multi-wavelength laser technology: violet, blue, red and infrared.

Why Therapy Vet IA

AI-guided treatment protocols

Greater clinical predictability

Including advanced laser surgery capabilities.

Automatic device configuration

Fewer manual adjustments

More efficient workflow

Precision. Technology. Results.

we create future

Clinical applications by area

DOG:

PDT / ILIB / WOUNDS / ARTHRITIS / PAIN (ACUTE AND CHRONIC) / FRACTURES / PARALYSIS / TENDINITIS / DERMATITIS / FUNGAL OTITIS

CAT:

PDT / ILIB / WOUNDS / ARTHRITIS / PAIN / FRACTURES / PARALYSIS / DERMATITIS / CORNEAL ULCER

HORSE:

PDT / ILIB / WOUNDS / ARTHRITIS / PAIN / FRACTURES / TENDINITIS / REPRODUCTION (INSEMINATION)

CATTLE:

PDT / ILIB / WOUNDS / ARTHRITIS / CHRONIC PAIN / MUSCLE INJURY / REPRODUCTION (INSEMINATION)

SHEEP / GOAT:

PDT / ILIB / WOUNDS / ARTHRITIS / PAIN

BIRDS:

PDT / ILIB / WOUNDS / FRACTURES / PAIN

REPTILES:

PDT / ILIB / WOUNDS / FRACTURES / PAIN

SMALL MAMMALS:

PDT / ILIB / WOUNDS / FRACTURES / PAIN

THE ONLY 7-IN-1 SYSTEM

One device.
Multiple applications.

- Photobiomodulation
- ILIB
- PDT
- Antimicrobial Light
- Laser Surgery
- Laser Photopolymerization
- Lesion Detection
