## What is Hoshiimo?

Hoshiimo is a traditional Japanese snack made from sweet potatoes. This is a safe and wholesome snack made from sweet potatoes that have been steamed and sun-dried.

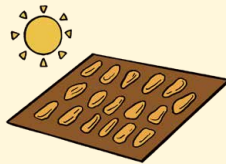

### Manufacturing Process

#### step 1 Steam

Steam the sweet potatoes gently

#### step 2 Dry

Sun-dried to remove moisture and concentrate the sweetness and nutrients

#### step 3 Ready

Preserving the natural sweetness and

### Why you can trust us

#### One single ingredient

Only Japanese sweet potatoes. Nothing else is included.

#### Zero preservatives

The natural process of sun-drying enables long-term storage without the use of preservatives.

#### Zero additives

We do not use any colourings, preservatives, artificial flavourings or

#### Human-grade quality

It is made from the same ingredients and to the same quality standards as food products for people.

## Why It Is Recommended for Dogs

### point 1 Rich in dietary fibre

It helps regulate the gut environment and can improve bowel movements. As it helps maintain a feeling of fullness, it is also effective in reducing stress and decreasing begging behavior.

### point 2 Rich in potassium

It supports the healthy function of the heart and muscles, helping to build a body that can run around energetically. Additionally, it helps maintain internal balance by flushing out excess salt and regulating fluid levels, supporting overall condition from the inside out through the benefits of nature.

Note

As this product contains potassium, please do not feed it to dogs suffering from kidney or heart disease. Please feed Hoshiimo in small amounts as a treat.

### point 3 Dogs love the flavour

The naturally rich sweetness of sweet potatoes is a flavour that many dogs love. The more they chew, the more the flavour develops, making it perfect not only as a treat but also for those joyful moments spent bonding with your dog.
