Built with Intent. Designed for Consistency.

	
Segregated wet and dry production zones to ensure process integrity	In-house laboratory for batch testing and product development
	
Nearly two-thirds of our workforce is women	Dedicated chillers maintained at -16°C for controlled preservation
	
Airtight dry storage to protect product quality	Closed drying systems for consistent output
	
Recycling and composting practices integrated into operations	Rainwater harvesting as part of our resource management approach
