PETIDEAL PET FOOD

Together, we can do more for our pets

www.petidealgroup.com

ABOUT US

Founded in 2005, Petideal today manufactures and supplies a wide range of products to partners worldwide including dried meat treats, rawhide chews and wet food. Petideal's success depends on the growth of our customers' brands, and we keep improving our products and service to meet customers' expectations.

Ever since the start of the company, Petideal has been pursuing growth together with partners, and we cherish the cooperation with many top brands. Petideal also helps start-up companies by offering small minimum order quantities, flexible payment terms and combined shipments, which has already helped many start-up companies to become big players in their markets.

Petideal fuels the success of our partners with innovation and expertise. Our treats products are developed based on deep market intelligence, decades of industry expertise and concept-to-shelf capabilities by fully understanding our partners' position and product strategy.

As the founding member of the Shandong Pet Industry Association (SPIA), Petideal has been working hard to promote responsible pet care and advance the pet products industry. By 2019, SPIA had more than 300 members. The annual meeting of SPIA has become one of the biggest pet industry summits in China.

Excellence is not a destination; it's a continuous journey that never ends. Petideal teams are always striving to produce better pet treats and food. Alone we can do so little, together we can do so much. Joint us to make a better life for our best friends.
