### BURNING TIME FOR SOLDERING WORK WITH THE ERGOMAX

- O<sub>2</sub> XL disposable bottle version -

For normal installation work, the burning time is sufficient for the entire working day, as the actual actual soldering time only accounts for a small proportion of the entire installation. Please refer to the table below for the exact burning times.

If the cylinders, especially the oxygen cartridge, become empty due to extensive work cartridges become empty due to extensive work, replacing the cartridges is quick and easy.

Welding insert	0,5-1	1-2	2-4
Burning time ( hrs.)	3	1,5	1

The O<sub>2</sub> & MAPP gas cylinders go empty at the same time!
