***Insect Screen Products***

## Flyziran...

The brand that makes you fly  
The company that gives you wings...

## • Company Profile

Our company's foundation is based on an extensive technical and production know-how from Xiamen Weiziran on the one hand, as well as on a strong European sales, marketing and management experience on the other hand. That's why we are able to present you quality products can choose to buy our products under our brand name "Flyzzz", or we can develop and produce your goods as you wish, with your own design and your own specifications.

## • History

Since 1996, insect screen products have been developed and produced by 'Daziran Industrial Co.,Ltd', based on a through production knowledge and experience, the company strives to be up-to-date to the market, while constantly developing new items and product features. Everyone involved in our company have a constant drive to develop and produce nice quality products at the reasonable prices. We keep the complete production and development cycle under control in our own factory: powder coating of aluminium profiles, injection moulding of spare parts in synthetic materials and fiberglass reinforced polymers, technical and graphical designing, packing, labeling, etc. Only the fiberglass netting is bought from other partner suppliers who also produce under international standards. Starting from 2006, Flyziran arranges the internation sales, Weiziran develops and produces. This step has been made in order to separate production and sales, so that all the involved persons can focus on and improve in their own field and specialty. In this way, we create a challenging environment to all employees in our organization.

## • Products

In enclosed product files, we partly give you an overview of our products range. Ethically, it is irresponsible to present products which are made for our clients under OEM-label, so these products you won't find here. A short summary of the main product groups we are producing and improving every day:  
Roller insect screens for door and window  
Insect window and door frames  
Sliding insect screens  
Insect curtains / Panel screens / Magnetic door curtains  
Motor roller  
Other insect screens.....  
A complete range of blister sets with spare and matching aluminium profiles, ready to be sold in professional or DIY market.  
Our own brand name or OEM production.  
Customers can make their own choice.  
Or they ask us to produce under OEM-label.  
Or they choose for our Flyzzz brand, and they enjoy the advantages of our newest, developments. This brand name stands for quality and solidity.
