WHY CHOOSE US?

SUSTAINABILITY

We believe that strong relationships are the cornerstone of long-term success. That's why we approach every customer with dedication, precision, and care – building trust through consistency, transparency, and personalized support.

Established in 2007 through the strategic merger of Finline GmbH (est. 1991) and Aviv PCB & Technologies (est. 2002), Finline Global has grown into a trusted global partner for advanced technology solutions across industries.

With deep market knowledge and a global presence, we deliver high-quality PCBs and tailored solutions with speed, flexibility, and reliability – wherever and whenever you need them.

WHAT DRIVES US

MISSION

**Dedicating oneself to
technological innovation**

VISION

**Being an outstanding provider of
world-class hardware solutions**

CORE VALUES

**Customer focused
Fast and efficient
Integrity and professionalism**

FINELINE IN NUMBERS

80

PCB engineers

13

Global offices

400

Global experts

50

Countries supplied

\$235M

of turnover
in 2025

25

Approved and
audited factories

130M pcs

Circuits supplied annually

3,000

Global cutomers

TIMELINE

1991

Fineline GmbH (Germany) established

2002

Aviv PCB (Israel) established

2007

Fineline GmbH and Aviv PCB merge to create the Fineline Group

2011

Fineline Italy, France, UK and Shanghai established

2014

Fineline Spain and Fineline Switzerland established. Fineline acquire KBL (Germany) and IMEX (Italy)

2022

Fineline acquires Shenzhen De-line Technology CO. Ltd (China)

2019

Fineline acquires Fuchsberger PCB (Austria) and the assets of Spirit Circuits (UK)

2018

Fineline acquire Prestwick Circuits (UK)

2016

Fineline acquire Exception VAR (UK)

2015

Fineline acquire QPI (Netherlands) and Macer (Nordics)

2023

Fineline acquires CADint Sweden AB (Sweden)

2024

Fineline acquires - IBR Leiterplatten GmbH (Germany)
Fineline Postugal established
Opening of the FINELINE BESS division

2025

2025 Fineline India established
Opening of the FINELINE ELECTOMECHANICAL division

- North America

1. Any Technology

From standard to complex PCBs, including single/double-sided, multilayer, flexible, rigid-flex, HDI, IMS (aluminum), RF, IC substrate and ATE boards.

2. Any Place

Worldwide shipping with dedicated logistics.

3. Any Timing

Maximum flexibility with technical and logistical support tailored to customer needs.

4. Any Quantity

Capability to handle small, medium, and large production volumes through our production plants and selected partners.

OUR PRODUCTS

- STANDARD PCBS +**
- MULTILAYER PCBS +**
- HIGH-DENSITY INTERCONNECT (HDI) PCBS +**
- AUTOMATIC TEST EQUIPMENT (ATE) BOARDS +**
- FLEXIBLE & RIGID-FLEX PCBS +**
- THERMAL MANAGEMENT PCBS +**
- RADIO FREQUENCY (RF) PCBS +**
- IC SUBSTRATE PCBS +**
- BACKPLANE PCBS +**
- CELL CONNECTION SYSTEMS (CCS) +**
- MSAP – MODIFIED SEMI-ADDITIVE PROCESS +**

MANAGEMENT

WHY CHOOSE US?

We accelerate your time to market and product innovation with our tailored QTA and NPI programs

QUICK TURNAROUND (QTA)

Fineline have a proven track record of supporting QTA manufacture and delivery.

- Complete guidance - from RFQ to Delivery
- Quick EQ
- Manufacture Lead times from 3 days onwards (based on PCB parameters)
- Manufacturing partners in EU, Far East, and North America

NEW PRODUCT INTRODUCTION (NPI)

Benefit from our extensive PCB expertise as we guide you through the complexities of new product introduction.

- Cost optimisation
- Technological feasibility check
- Technical seminars
- Factory consistency for prototype and volume manufacture

WHY CHOOSE US?

Supply chain management - we optimize your supply chain for maximum efficiency and reliability. Fineline provides comprehensive supply chain management, ensuring reliable PCB manufacture through:

GLOBAL PCB EXPERTISE:

Deep understanding of the global PCB market.

WORLDWIDE MANUFACTURING NETWORK:

Access to a broad range of audited PCB factories worldwide.

SHENZHEN SUPPLY CHAIN CENTER:

Deep understanding of the global PCB market.

LOCAL FACTORY PRESENCE:

Fineline staff present in our key partner factories.

END-TO-END MANAGEMENT:

Managing all aspects of our supply base, including engineering, pricing, logistics, quality, and factory performance.

RIGOROUS QUALITY aASSURANCE:

Robust factory audit processes led by our QA Team and a VDA-certified auditor.

CUSTOMIZED SOLUTIONS:

Tailored inventory programs and material planning.

WHY CHOOSE US?

Our People: Your Trusted Partner

Customer-Centric Focus: Trusted by customers worldwide as their preferred partner.

Teamwork and Excellence: Our core business philosophy is centered on teamwork, and we strive for excellence in everything we do.

Global Collaboration: Effective and efficient collaboration with our global organization and suppliers.

Advanced IT Solutions

Rapid Response: Accurate and rapid responses in quotation management.

Quality Assurance: A customer-specific checklist for a "right first time" approach.

Data-Driven Insights: Advanced BI system.

WHY CHOOSE US?

We empower your PCB projects with deep engineering expertise and comprehensive technical support.

Engineering Excellence

Experienced Team: A team of highly experienced engineers, many with direct PCB production backgrounds.

Advanced CAD/CAM: Our own CAD and CAM software for efficient design and manufacturing processes.

Streamlined Processes: Automatic panelization in Gerber format, including PDF specification with all layers.

Technical Support

Expert Solutions: Technical solutions provided by our team of PCB experts.

Design & Documentation Assistance: We assist with design, provide technical solutions, and review customer documentation.

Design for Manufacturability (DFM): Assistance with DFM to optimize designs for efficient production.

WHY CHOOSE US?

Logistic and stock management
we offer comprehensive logistics and stock management solutions to streamline your operations

SEA SHIPPING

Full (FCL) and Partial (LCL) Container Solutions

We offer secure and scalable ocean shipping for both full container loads and consolidated shipments—ideal for bulk PCB deliveries requiring cost-effective transit.

ROAD SHIPPING

Reliable Ground Transport Across Italy and Europe

Our land shipping services ensure fast, dependable delivery across national and international routes. We offer dedicated and same-day shipping with in Italy (up to 24 hours), and European delivery within 24–48 hours.

AIR SHIPPING

Flexible and Express Options for Time-Critical PCB Delivery

From standard and express to groupage, hand-carry, and dedicated cargo charter services, our air shipping solutions guarantee rapid response for urgent and high-value PCB consignments.

VMI - VENDOR MANAGED INVENTORY

Real-Time Inventory Control for Continuous Supply

Our VMI service provides intelligent inventory management through real-time monitoring, automated stock replenishment, and strategic reorder planning—ensuring your PCBs are always available when needed.

WHY CHOOSE US?

Quality assurance

we adhere to the highest quality standards to guarantee the reliability and performance of our PCBs

Globally

- **AS9100**
aerospace certification
- **NADCAP**
national aerospace and defence contractors accreditation program
- **ISO13485**
medical device system certification
- **IATF16949**
automotive system certification
- **ISO9001**
(FL hold) management system certificate
- **ISO27001**
information security management certification

- **ISO45001**
health & safety management
- **QC080000**
hazardous substance process management (HSPM)
- **ISO14001**
environmental management system certification

In addition, UK

- **ESA**
european space agency
- **JOSCAR**
joint supply chain accreditation register (for aerospace, defence, and security industries)

SUSTAINABILITY AT FINELINE GLOBAL DRIVING SUSTAINABLE INNOVATION

**SUSTAINABILITY IS NOT JUST A GOAL,
IT'S HOW WE GROW**

At Fineline Global, sustainability is integral to our operations and strategic vision. We are committed to minimizing our environmental impact, fostering social responsibility, and upholding robust governance practices.

SOCIAL

- Annual employee engagement surveys.
- Safe, inclusive, and growth-oriented workplace.
- Active support for local communities

ENVIRONMENTAL

- Commitment to reducing our carbon footprint.
- Promoting eco-friendly technologies.
- Partnering with SGS for continuous improvement.

RECOGNITION

- EcoVadis certified.
- Winner of the Gefran 2023 Sustainability Award.

GOVERNANCE

- Strong ethics and transparent business practices.
- Robust risk management across the supply chain.
