PIONEER BRAND OF HIGH LUMEN FLASHLIGHTS

ACEBEAM is the leading brand of high-lumen flashlights. It constantly pursues the ultimate quality and creates outdoor lighting products that are brighter, farther, and beyond imagination. We established the factory in 2009 and the ACEBEAM brand in 2014, becoming the pioneer of high-power flashlights and LEP flashlights. With more than ten years of industry experience, we focus on the R&D and manufacturing of high-lumen, constant-current and constant-voltage circuit design and over-the-horizon range optical flashlights. An excellent mentality breeds excellent products. ACEBEAM product design has always led the industry trend and is widely used in industrial, outdoor, civilian and gift fields.

ACEBEAM's current product line includes five application areas: daily EDC flashlights, high-power outdoor flashlights, tactical flashlights, headlamps and LEP flashlights. We are committed to achieving the best performance in a limited space, providing users with the longest lighting range in its class. We continue to transcend conventions, break traditional concepts, and always adhere to the concept of product quality first. Therefore, ACEBEAM has become the first choice brand trusted by different users such as outdoor enthusiasts and modern extreme explorers.

89+

■ BRAND STORY

A group of intrepid adventurers and lighting industry experts embarked on a quest to search for the essential qualities of lighting, starting a life journey to discover and create "the only thing that matters" in the realm of lighting experience. They found out, to their disappointment, about the truth of the status quo of the lighting industry, where the "extreme range of everything" is often missing, and products were not made for the customer's ultimate satisfaction, especially concerning outdoor activities and special needs. In 2009 they established a factory, starting to tentatively solve the issue of the missing categories. In 2014, they resolutely founded ACEBEAM, with a passion for making the "best," "first," "longest," and "most ideal" lighting equipment to satisfy the various needs of outdoor sports, in order to create a perfect market place for this group of consumers. Later ACEBEAM continued to innovate to satisfy the demands of an ever-growing market, expanding the product line by introducing more "out of this world" versions of lighting equipment.

READY TO BE THE ULTIMATE ENTHUSIASTS

The passion for outdoor adventures knows no bounds, but one is in need of the right gear to start a short or long journey. ACEBEAM's products are committed to giving you the ultimate satisfaction of having the right lighting tools that aid you in each and every situation that arises. Look no further than ACEBEAM's product list, where you will find tools that meet your scenarios' requirements,

SPONSOR OF LIFE-CHANGING EVENTS

ACEBEAM likes to make the world a more perfect place to raise awareness of various social and health issues. Thus, ACEBEAM became a sponsor for many organizations and events to promote and support societal issues about life and life-changing opportunities, such as the American marathon.

ACEBEAM specializes in providing "must-have" tools for outdoor adventures.

OUTDOOR MAGAZINE RECOMMENDATION

Every flashlight from ACEBEAM is a testament to a steadfast commitment to product creativity and a pursuit of excellence. Magazines and media outlets the world over noticed our effort in making essential lighting tools for various scenarios, and recommended these products to readers worldwide.

EXHIBITION

Often ACEBEAM holds exhibitions around the world to showcase the latest cutting-edge lighting technologies. Customers at such events are very impressed with ACEBEAM's portfolio of lighting gears. By listening to their suggestions, we have also gathered information on what to do to make improvements to a variety of products.

CIRCUIT AND OPTICAL ADVANTAGES

In this picture, you can discover the exquisite craftsmanship of ACEBEAM's lighting equipment. Different parts of the circuit and optical arrangement is optimized to achieve a high-performing function, using cutting-edge industry know-how.

PRODUCT CATEGORIES

A person wearing a helmet and gear stands on a rock in a cave, shining a flashlight. The cave walls are covered in stalactites and stalagmites, and a body of water is visible in the background.

High Power Flashlights

ACEBEAM, a pioneer in high-power outdoor portable lighting products, has extensive expertise in the R&D, production, and management of such lighting solutions. From the earliest X60 to the recent X75, ACEBEAM has mastered the essence of creating compact and high-power products, ensuring excellent brightness and product stability. We've been at the forefront of high-power search lighting trends for years.

LED Headlamps

ACEBEAM uses its years of LED experience to create ultra-bright high-performance headlamps with the intensity to meet all your lighting needs. ACEBEAM headlamps are both durable and comfortable, rated up to IP168, giving you hands-free lighting even in extreme weather conditions.

Tactical Flashlights

ACEBEAM has always been committed to the mission of lighting for extremes since the birth of the brand. ACEBEAM Tactical series upholds the design concepts of toughness, reliability, and professionalism. This series enters with high performance and extended reach, which becomes the unmatched choice for policing, military activities, and enforcing the law.

EDC Flashlights

Instead of following trends and launching similarly-styled lights to its competitors, the researchers at ACEBEAM have taken the time to truly develop and enhance their products to cater to the demands of the customers and the market. Compact, portable, and high-performing, ACEBEAM EDC flashlights are an optimal lighting source to easily keep on hand throughout the day in case of an emergency. Whether you need an EDC flashlight for finding a lost item that rolled under the bed or lighting up your walk into work in the morning, having a reliable flashlight at the ready will keep you safe and productive.

LEP Flashlights

The word LEP (Laser Excited Phosphor) was invented by ACEBEAM in 2018 and is also nicknamed white laser flashlight by the industry. In the same year, the first long-distance LEP model W10 was released, with a range of up to 1000m. However, the diameter of the optical lens was only 31.5 mm, and powered by the battery. The W30 was launched in the following years, with a 2400m long-distance capability, making the long-distance camera with a diameter of only 60 mm become a reality. LEP has the advantages of low power consumption, high brightness, small size, high efficiency, and practicality. It can be widely used in national defense, military search, maritime, field research, firefighting, rescue, patrol, and other fields.

X75

BRIGHTEST PORTABLE USB PD POWER BANK FLASHLIGHT

One of the most powerful flashlights in the world, a flagship product of ACEBEAM, the X75 Brightest Power Bank Flashlight is an ultimate tool that excels in making your life easier. Being the brightest means just that, and it has a max output of 80,000 lumens. It supports PD60W and PD100W fast charging.

H30

THE BRIGHTEST HEADLAMP IN THE WORLD

With a wide-angle design for an expansive view, the H30 is the brightest LED headlamp on the market driven by a single 21700 battery. Suitable for mining, exploration, and outdoor search. The secondary LED options of various colors are available to enrich your application scenarios.

P17

DEFENDER

POWERFUL DUAL-SWITCH TACTICAL FLASHLIGHT

ACEBEAM Defender P17 Tactical Flashlight features a Cree XHP70.3 LED, emitting a maximum output of up to 4900 lumens and throwing a beam distance of 445 meters (1459 ft). It has a dual tactical tail switch for instant activation and strobe. An easy one-hand use for tactical situations. An ideal tool for hunting, search and rescue, law enforcement, and outdoor activities.

Pokelit AA

HIGH CRI TITANIUM FLASHLIGHT

This series combines precious metal titanium with a unique design. Being a pocket-friendly flashlight, Pokelit AA Ti is one of the few things in the world that makes you feel like you can never have enough of it, or you must add it to your collection.

M1

TERMINATOR

**LEP & LED
DUAL LIGHT SOURCES**

ACEBEAM'S FIRST DUAL LEP&LED ZOOMABLE FLASHLIGHT

A breakthrough product by ACEBEAM to combine the latest LEP and LED technologies, Terminator M1 is both a spotlight and a floodlight, with the spotlight being zoomable, produced by the LEP module. Perfect for various applications.
