

Cyber Threat Intelligence Platform

QUAXAR

Know the Threats,
Before They Launch the Damage

All-Round Cyber Threat Intelligence

QUAXAR allows the management of Digital Risk Protection (DRP), Attack Surface Management (ASM), and Threat Intelligence (TI) within a single platform, providing comprehensive protection for an organization's key assets.

Secure Digital Presence

Protect the digital assets from the Deep & Dark web and Telegram

Total Surface Visibility

Know the vulnerable assets, manage the risks

Proactive Threat Analysis

Profile the threat actors, integrate the TTP, IoCs to devices

Intelligence Report

Deep Insights, by Nation Professionals

Gain in-depth intelligence on global cyber threats through expert analysis reports by S2W

- Vulnerability & Malware Analysis
- Threat Actor Profiling
- Deep & Dark Web Intelligence
- Incident Response

The screenshot displays a web-based intelligence report interface. At the top, it shows a 'Group Profile: RipperSec (Updated, 2026-04-06)' with a 'Download PDF' button. Below this, there's a section titled 'Who is RipperSec?' with a 'Detailed Analysis of Iran-Israel/USA Cyberwarfare' link. The main content area features an 'Executive Summary' section with a 'Quick Overview of Citrix NetScaler Memory Overread Vulnerability (CVE-2026-3055)' link. The report includes detailed information about the vulnerability, including its discovery, impact, and mitigation steps. A table at the bottom lists various channels and their names.

QUAXAR ASM

Effortlessly secure forgotten or unauthorized assets with automated monitoring, reducing risk before attackers exploit hidden vulnerabilities.

Comprehensive
SCAN

Automatically identifies exposed assets through focused scanning to provide complete attack surface visibility.

Multi-Layered
ANALYSIS

Analyzes assets across multiple dimensions, aligned to each stakeholder's scope and perspective.

Continuous
MONITORING

Continuously tracks asset changes and security events based on defined scan scopes and schedules.

COMPREHENSIVE PROTECTION ACROSS ALL SECTORS

Trusted by industry leaders worldwide to safeguard essential digital assets
