

PROART®

FOOD FROM ART

PROART®

FOOD FROM ART

Dry Food

It offers healthy ingredients with marine sourced raw materials such as high quality micro algae, krill and astaxanthin. It maintains its freshness for a long time even after opening with its special packaging and triple zip system.

Wet Food

Wet foods made up with meat pieces or meat paste form offer a wide product range with high quality ingredients and different packaging options.

Treat Sticks

A delicious complementary food for cats and dogs with 90% real meat content. The special design, which allows one-time use, maintains its freshness for a long time in its aluminum packaging.

Cat Litter

Cat litter made of 100% white bentonite is a product that allows your cat to meet her/his toilet needs in safe and hygienic conditions. Odorless litter and options with different scents are available.

PROART®

Dry Food

ProArt® Fish & Chicken Adult Cat Food

Premium Cat Food For Adult Cats Of All Breed

Complete & Balanced Food

ProArt® Adult Cat Food is a complete and balanced formula with its premium protein sources and optimum fat level to promote well digestion and maintain a healthy weight.

Hairball Control

High natural fiber content supports the digestive system health and help passing the hairballs easily.

Strong Immunity and Healthy Digestive System

Natural prebiotic fibers support the development of beneficial bacteria in the gut and help reduce the harmful effects of pathogens. Together with a healthy digestive system, the natural antioxidant ingredients supports your cat`s immune system.

Eye, Heart, Skin Health and Shiny Coat

With its balanced fatty acid and amino acid contents, and specially added taurine, astaxanthin and vitamin E, it supports heart, skin and vision health, and shiny coat.

Health From The Sea

Algae are single-celled aquatic organisms that are naturally rich in protein, fiber, vitamins and minerals. Krill are small shrimp-like crustaceans that live in the oceans packed full of long-chain omega-3 fatty acids, phospholipids, choline and astaxanthin. With their superfood content, krill and algae promote your cat's joint health and help to suppress pro-inflammatory agents.

Ingredients

Dried Chicken Proteins (35%), Corn, Whole Wheat Flour and Wheat Gluten, Whole Rice, Refined Poultry Fat, Hydrolysed Fish Protein (5%), Dried Sugar Beet, Krill Protein and Oil, Hydrolysed Chicken Liver, Dried Yeast, Natural Prebiotic, Mannan-Oligosaccharide, Microalgae, Methionine, Taurine, Sodium Chloride, Vitamins and Minerals, EU Approved Antioxidants.

ProArt® Kitten Food

Premium Cat Food For Mother And Kitten Up To 12 Months Of Age

Complete and Balanced Food

ProArt® Kitten Food has proper fiber content and specific ingredients to promote good digestion and reduce stool amount and odor. It is a complete and balanced food formulated with premium protein sources. It contains all the nutrients your cat will need on a daily basis.

Healthy Growth

ProArt® recipe is designed to meet the specific needs of growing kittens (after weaning to 12 months), and for pregnant or nursing cats. It is enriched with balanced minerals to promote healthy bone development of kittens. Suitable size of kibble and its texture is easy to chew, and healthy for a kitten's mouth and emerging teeth.

Strong Immunity and Digestive System

Natural prebiotic fibers support the development of beneficial bacteria in the gut and help reduce the harmful effects of pathogens. Together with a healthy digestive system, the natural antioxidant ingredients support your cat's immune system.

Eye, Heart, Skin Health and Shiny Coat

With its balanced fatty acid and amino acid contents, and specially added taurine, astaxanthin and vitamin E, it supports heart, skin and vision health, and shiny coat.

Healthy Pregnancy and Lactation Period

It meets your cat's nutritional needs during pregnancy and lactation, contains DHA to support babies' brain development during pregnancy. It improves your cat's milk quality and efficiency in the postpartum period and supports the healthy development of its kittens.

Health From The Sea

Algae are single-celled aquatic organisms that are naturally rich in protein, fiber, vitamins and minerals. Krill are small shrimp-like crustaceans that live in the oceans packed full of long-chain omega-3 fatty acids, phospholipids, choline and astaxanthin.
