Special developed for the **die-casting industry**

HIPROJACKET-ECO[®]

A complete system made from a corrugated stainless steel AISI-316 flexible metal hose and our newest heat protection product **Hiprojacket-ECO**. Made by **ANAMET EUROPE** and extensive tested in collaboration with **ROBANAT**.

- Thick heavy duty braided sleeving
- Extra thick smooth silicone rubber
- Excellent oil resistant
- Halogen free
- Inherently flame-retardant
- Superior temperature reduction

Now available in sizes 22mm, 28mm, 50mm

THE GREAT ADVANTAGES OF HIPROJACKET-ECO:

- Significant reduction of energy loss
- Lower surface temperature
- Durability of corrugated metal hose against PTFE
- No PFAS!
- Great protection against skin burn risk

For applications in aluminum, zinc and magnesium die-cast industry & tire industry
