

HELLO
LOVE

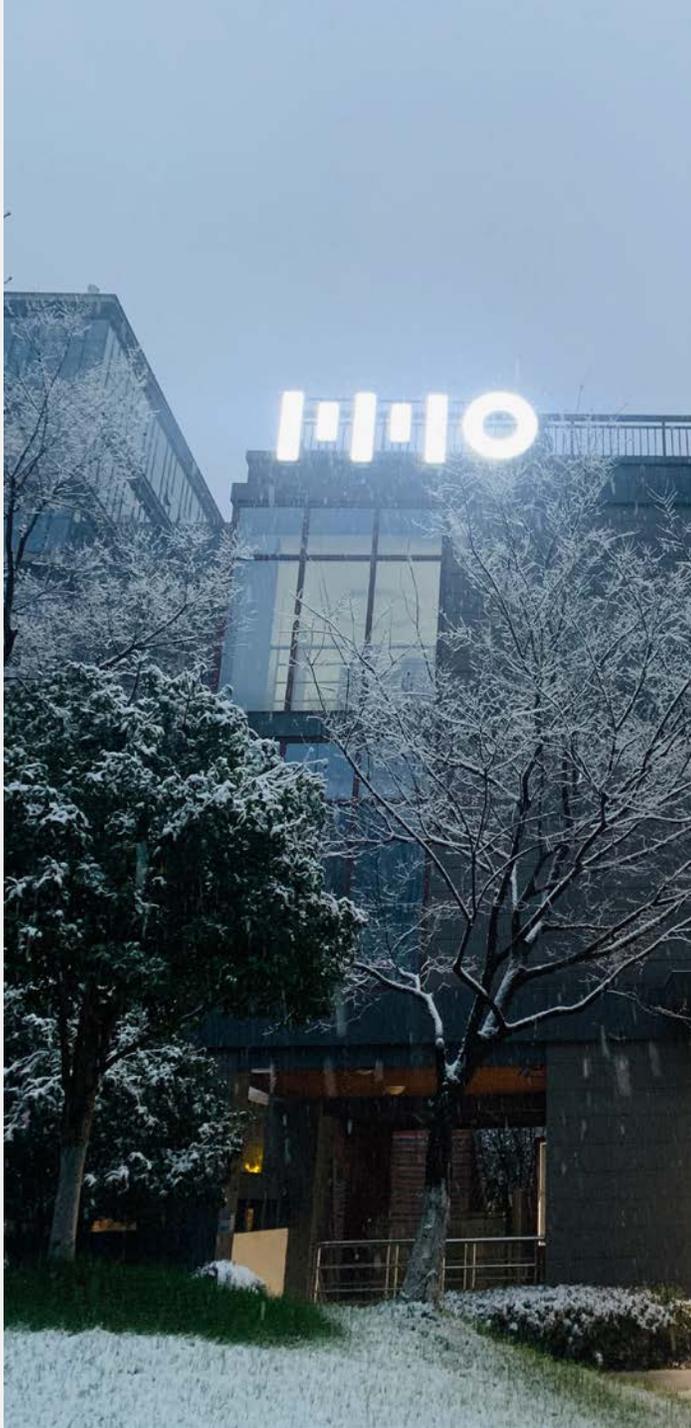

AI CARE, O IN LOVE

Introduction of HHO Company

An AI-powered technology company dedicated to improving everyday life through intelligent innovation

HHO was founded in 2021 by the original team that built Alibaba DingTalk from its early stages in 2014. Before establishing HHO, the team helped grow DingTalk into one of China's leading enterprise collaboration platforms, serving over 500 million users across more than 17 million organizations. Building on this experience, HHO was created to focus on digital transformation and intelligent technology innovation. In 2025, HHO entered a new chapter as a wholly owned subsidiary of Alibaba Group. Today, HHO brings together nearly 150 professionals, with over 60% dedicated to research and development, drawing talent from leading technology companies including Alibaba Group, Huawei, ByteDance, and Foxconn.

ABOUT HHOLOVE

HHOLOVE is an AI-powered pet tech brand wholly owned by HHO Company.

At HHOLOVE, we believe pets are more than companions — they are family. Our mission is to help pet parents gain deeper insight into their pets' lives through intelligent technology, transforming daily care into moments of trust, understanding, and closeness.

By combining advanced sensing systems, intelligent computing, and proprietary AI algorithms, HHOLOVE interprets pets' physical health, behavioral patterns, emotional signals, and daily habits with precision and care.

Across a range of smart devices and one integrated digital ecosystem, we enable seamless interaction between pets and their families — supporting safer routines, healthier lifestyles, and lasting emotional bonds. HHOLOVE elevates pet care beyond routine management, creating a smarter, warmer way of living where every pet can thrive in comfort, confidence, and love.

Vision

To build the world most pawstive company

Mission

To serve a better pet life through fun discovery

Slogan

AI Care, O in Love

BRAND ORIGIN

HHO LOVE was born from a place of genuine companionship. Living alongside pets every day, we learned that care is not defined by routines — but by noticing subtle changes, reading quiet signals, and responding before problems appear.

Most pet products automate tasks.
Few help people truly see their pets.

We believed technology could do more.

By combining intelligent sensing, data insight, and AI-driven interpretation, HHO LOVE reveals what pets cannot say — turning daily behavior into clear understanding.

Our goal is simple:

to help pet parents act with confidence, stay connected with ease, and create a better life for the pets they love.

CORE COMPETENCIES

Powered by AI, HHOLOVE combines multi-sensor perception and intelligent computing to understand, respond to, and anticipate pets' needs — building a digital lifestyle designed entirely for pets.

24 hours full-time care

From eating and drinking to feeding, litter activity, and health monitoring, HHOLOVE supports pets throughout their entire daily life cycle, ensuring safe, stable, and healthy care — even when pet parents are away.

Pet-life record

Every moment matters. HHOLOVE automatically records pets' daily behaviors and life data, creating a complete growth timeline that enables long-term health tracking, trend analysis, and traceable pet care insights.

Ultimate connection

Through seamless integration between smart devices and the HHOLOVE App, pets and pet parents stay connected anytime, anywhere — across space, time, and scenarios.

Cross-space companionship

Distance should never weaken love. With real-time sensing, video, audio, and interactive technologies, HHOLOVE enables emotional companionship beyond physical boundaries — so pets never feel alone.

Fun discovery

By combining AI vision, two-way communication, and intelligent interaction, HHOLOVE turns technology into play, discovery, and emotional bonding — connecting pets with pet parents, pets with pets, and pets with the world.

HHOLOVE Global Users

HHOLOVE products are sold to 40+ countries and served 500,000 + families.

Automatic Cat Litter Box Pro

Triple Safety Protection | Smart App Control |
Health Track | Choice for multi-cats family

Safety is Our Priority

Lateral dumping structure and multiple sensors secure a safe toileting experience.

Automatically Scooping

Allows one-button scooping and app-scheduled scooping, truly hands-free, No more constantly watching the litter box.

App Control & Data Record

HHOLOVE APP monitors your cat's toileting activities, collects and analyzes its toileting records, helping to track your cat's health and well-being.

Friendly to Multi-Cats Family

This device can recognize different cats by the in-built weight sensor. Toilet records will be saved separately.

Odor Elimination & Disinfection

UV Sterilization in the inner bin and the deodorant box—ensuring odors have nowhere to escape.

Large Drum & Low Entry for Easy Use

Low entry for short-legged cats, kittens, senior cats, and pregnant cats—supporting every stage of your cat's growth

Two-Step Disassembly for Easy Cleaning

Simply two steps to remove and clean the inner bin. And it is water washable.

Compatible with All Clumping Cat Litter

Compatible with All Clumping Cat Litters (except crystal litter)—No Clogging or Leaks.
