Our solutions

Identity Lifecycle Management

Create a single source of truth for all your applications. Enhance your existing Microsoft investments, automate on- and offboarding, and connect all your systems.

Access Management

Enable modern secure access, SSO, authentication, and identity management to on-premises, hybrid, and cloud infrastructures.

Identity Governance for SAP

Centralized SAP identity governance with privileged access functionality and AI-driven authorization concepts.

PKI Management

Advanced certificate-based authentication and lifecycle management of certificates and tokens for all platforms and environments.

Secure Information Exchange

Enable ad-hoc, user-friendly, encrypted, and traceable transfers of large and sensitive files directly integrated into your email client to any recipient.

made in **europe**

Pointsharp is a European cybersecurity company that enables organizations to secure authorizations, access, identities, and data in a user-friendly way. Security must be easy to use, and our vision is to give everyone access to a safe, modern digital workplace. We provide specialized IAM solutions that are made to fit the most demanding and specific needs.

We deliver European-made cybersecurity software and services to customers worldwide. You can often find our customers in large enterprises requiring extra high levels of security and regulatory demands, like the financial, governmental, industrial, and defense sectors.

We have our headquarters in Stockholm, Sweden, with offices in Germany, Denmark, Switzerland, and the Netherlands.
