

DAMOVO SECURITY SERVICES

# vCISO

## (virtual Chief Information Security Officer)

**Don't have in-house cyber security expertise?  
Meet your virtual CISO from Damovo...**

**Our vCISO service closes a critical gap for many organizations – providing you with the strategic insight to reinforce your cyber security. We offer four different approaches – each of which provides you with a team of experts:**

**Onboarding:** supporting your new CISO to grow into their role

**Consulting:** taking on specific information security tasks, like creating information security guidelines, supporting with corporate audits and certifications, and implementing compliance and governance requirements

**Interim support:** setting up an Information Security Management System (ISMS) and associated processes and then handing it over to your new CISO

**Mentoring:** on-demand support on specific security-related topics

**Exchange** on specific IT security-related topics

With today's increasingly demanding standards and a need to continuously improve your organization's security maturity, it's good to know the experts at Damovo are here to keep you one step ahead.

LET'S TALK SECURITY
