

General Cutlery has been a reliable supplier for hand made custom knives for over 20 years. As a professional in this field, we have specialized in stainless steel pocket knives, fixed blade knives, etc. We are responsive to customer's ideas and realize products according to their specific requirements.

Located in Yangjiang, the hometown of Chinese knife & metalwares, allows us keep in close contact with the updated trends both in materials & technologies .

Our advantages include:

- 3 core factories of own and a network of over 1000 suppliers enable us a lower cost & powerful capacity production.
- A professional Design & Research team, working on new ideas for both products and packaging, to meet the needs of customers all over the world. permanent close contact to our network of customers in order to identify new trends on the market. Accurate and efficient realization of individual customer requirements .
- A complete & strict QC system, covering each link from design to material purchase, production and to the goods delivery. As per to a principle "the manufacturer himself is held responsible for product quality", each link in the production course is subject to strict control. We require those defects and hidden troubles to be rectified from the very beginning after arising, to ensure our quality. In order to ensure our products to meet clients' requirements , we test each product before it leaves our factory.

· Faithful & reliable service to our customers . We take great care to provide the best service for our customers . Quality First is our company base policy. Providing consumers with pleasure and the assurance of long lasting use is what we are doing everyday.
