Way Of Working

Together, we make the difference.

ACD®, more than just a greenhouse or garden room.
ACD®, more than just a manufacturer.

With us, you can **rest assured**

Support

Get quick answers to all your questions by telephone or email. Our team will help you personally.

Assistance

We offer 24/7 technical support during assembly. So you're never on your own.

Maintenance

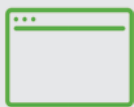

We always give you specific maintenance advice for optimal use, all year round.

Warranty

You enjoy a long-term warranty on our products. That's ACD® quality you can rely on.

We are close to you **online**

Website

Our starting point for clear information, inspiration and direct access to our products and services.

FAQ

In the FAQ-section we provide quick and clear answers to the most frequently asked questions we receive.

Manuals

Find all the manuals bundled together for additional explanations or assembly instructions.

Videos

Our YouTube channel is full of useful tips and tricks from our experts.

ACD® is at your **side**

Accessories

There is the possibility of expanding in the future with various accessories specifically for your conservatory.

Damage repair

In the event of storm damage or unexpected damage, we are ready to provide repair support so that your conservatory is back in top condition.

Spare parts

We guarantee the availability of spare and replacement parts for your conservatory for many years to come.

Service

Even after your purchase, you can continue to count on personal advice and assistance whenever you need it.

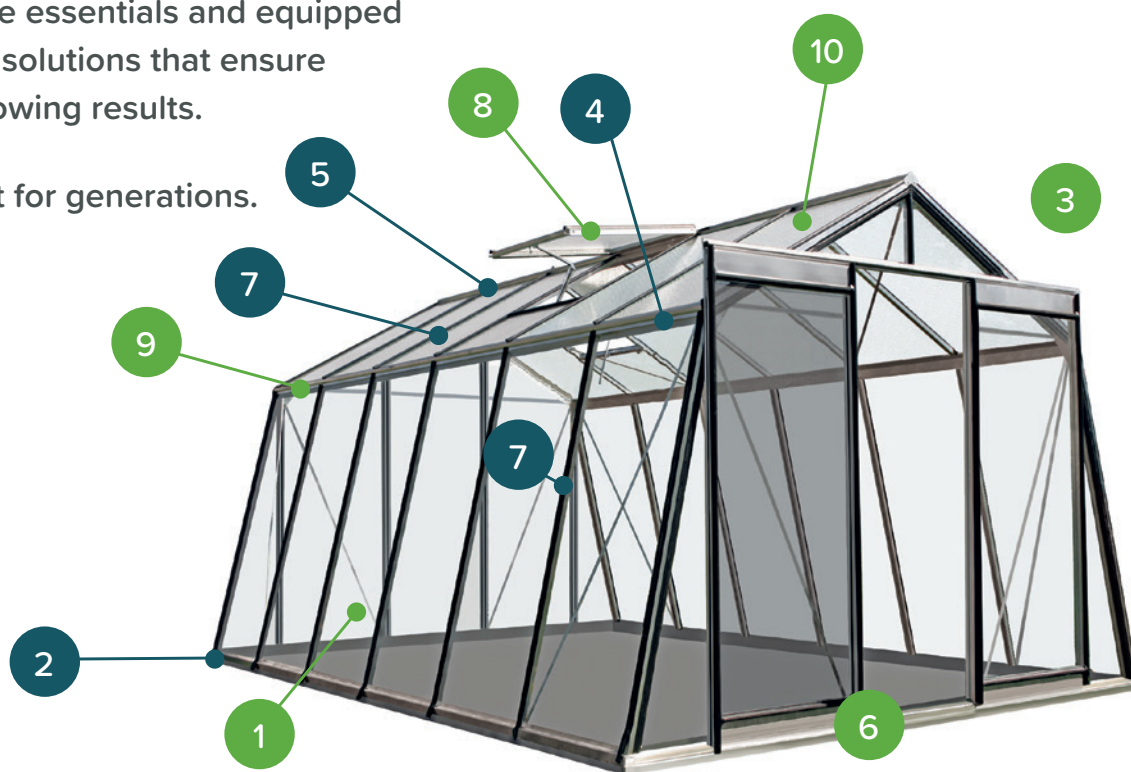

That's why you choose ACD®

**ACD® Prestige: quality for life,
generation after generation.**

The construction has been refined down to the essentials and equipped with smart solutions that ensure optimal growing results.

Built to last for generations.

1

4 mm safety glass

The safety glass carefully selected by ACD® is 7 times stronger than drawn horticultural glass.

2

Unique self-supporting foundation

Unique in the hobby greenhouse world, enabling fast and easy installation.

3

Stainless steel bolts and nuts

Rust-resistant bolts and nuts ensure a solid, durable construction.

4

Spacious and large outdoor gutter

Ensures smooth drainage and guidance of rainwater.

5

Closed tubular ridge beam

This strong, self-supporting ridge profile provides excellent load-bearing capacity and strength thanks to its specific, large box shape.

6

High and highly accessible sliding door

This wide opening makes it easy to bring in a wheelbarrow, large plants, or garden tools.

7

Tubular and box-shaped glass lines

Form a strong whole, with grooves for easy assembly. Their shape prevents twisting and glass breakage in wind and snow.

8

Large skylight with storm protection

Made from hammered safety glass with a storm latch. The sturdy opener lets you easily vent for optimal airflow.

9

Wide and high condensation gutter

The wide gutter profile drains rainwater efficiently and makes it easy to collect for reuse in the greenhouse.

10

Hammered safety glass roof

Thanks to polished edges, self-installation is easy and extra sturdy. If it does break, it shatters into small, harmless pieces.

Take a look at the components in this Discovery Box and discover the difference.

What do you want to do with your greenhouse, garden room, or outdoor space?

A place to grow, to live, and more.
Get inspired by ACD®'s inspiration book and the different brochures.

Browse our inspiration brochure and discover everything that's possible with ACD®.

You'll find all the information you need to choose with confidence, but above all: plenty of images to spark ideas.

See how light, space, and greenery come together to create a place you love spending time in, season after season.

This brochure brings together options, examples, and details, so you don't just compare, you also dream.

Promotional brochure

A clear overview of sharply priced growing greenhouses. Strong on quality and ease of use.

Living spaces

More than a greenhouse. Fully fledged living spaces with light, comfort, and finishing that bring your garden closer to your home.

Urban

Compact in size, big on possibilities. A selection of smart models that fit city terraces and smaller gardens.
