ERGONIC®

ERGONIC[®] VDE

The first handle that adapts to the hand

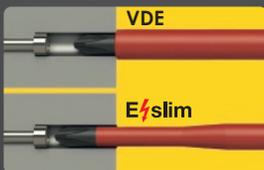

Flexible cushions, patented

Individually tested with 10.000 Volts

VDE certified

Reaches screws in tight places

Black tip for precise fit

ERGONIC[®] E-slim

Handle 30% slimmer

Insulation up to 50% slimmer

Your safety is our concern. The ERGONIC[®]-series with insulated blades offer ideal safety tools for working on electrical installations and appliances. Each screwdriver is produced and tested in Germany according to the high VDE safety standards.

E-slim with its slim handle and insulation puts screws in tight areas within easy reach: perfect for electricians working on cabinets and switchboards.

for precise fit

ERGONIC® Hammer cap

Full-length blade

Your hands are your most important tools. With all conventional ergonomic screwdriver handles it is always the hand that has to adapt to the handle. Our ERGONIC® is the only screwdriver with flexible cushions that adapt to the user's hand. The perfect shape and integrated cushions provide optimum torque transmission and reduce strain on hand and joints.
