JOB

EIBENHOLZ

Job

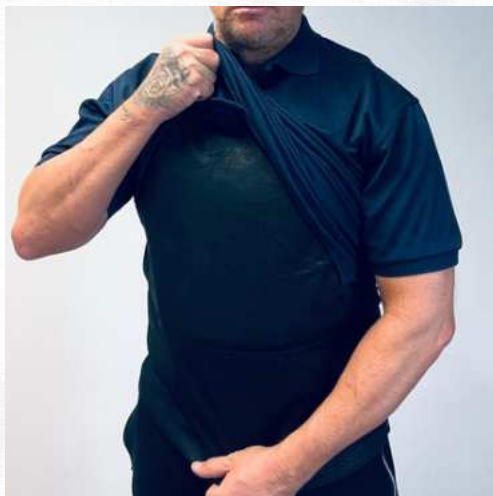

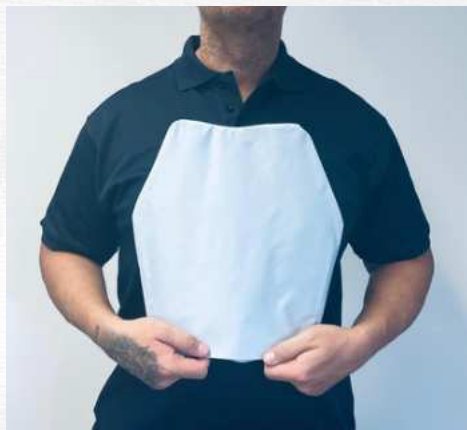

Be safe in operations thanks to ballistic protection systems and customised versions against slashing and stabbing weapons.

Particularly suitable for police, authorities and private security services working undercover in civilian clothes.

Our pullovers are modularly upgradeable.

Our vests are modular and can be upgraded from stab-resistant to bullet-resistant to SKI.

**Cut and stab resistant
bomber jacket - modular
upgradeable to SK1**

**Cut and stab resistant
leisure waistcoat - with
bullet resistant inserts to SKI
on request.**

FABRIC & MATERIAL

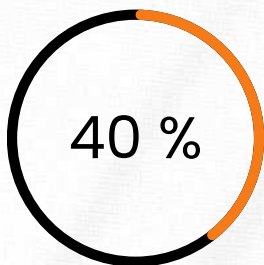

EIBENHOLZ

Fabric & Material

- Cut and puncture resistant up to 800N
- PE-based high-performance fibres
- Protection against slashing and stabbing weapons
- In-house fabric production

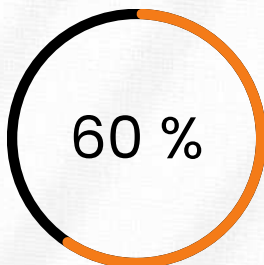

This is what characterises our materials:

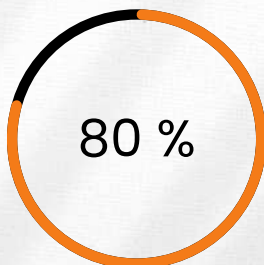

40 %

higher tensile strength than aramid fibres
(e.g. Kevlar)

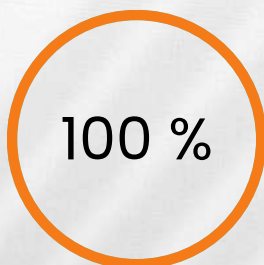

60 %

stronger than carbon fibre and glass fibre

80 %

Resistant to moisture and UV light

100 %

The tensile strength of HPPE is 15
times higher than that of steel

PATCHES

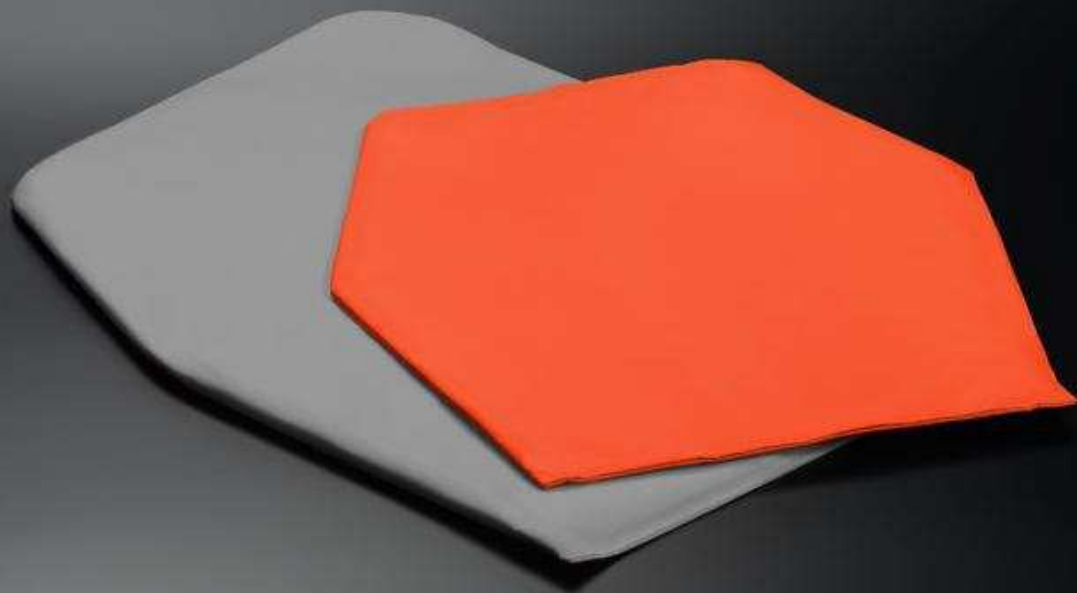

EIBENHOLZ

Patches

Two protective structures are particularly important here: our 2.5 mm thin structure in accordance with SK1 VPAM2 and our extremely powerful 4.5 mm structure in accordance with SK1 Plus special protection testing.

Both ballistic systems are produced in Germany and are certified by German bulletproofing authorities.

SK1 VPAM2 – 2.5mm thin

- 9.0 mm full metal jacket bullet DM41
- 22 KK (small calibre)

SK1 PLUS special protection test- 4.5mm thin

- 9x18 Makarov FE core up to 360 m/s
- 9mm full metal jacket DM41 up to 560m/s
- 7.62 x 25 Tokarev up to 563m/s – distance 5m.
- 7.62 x 25 Tokarev up to 450m/s – mounted shot
- Cal. 357 partial jacket up to 430m/s
- Cal. 44 up to 436 m/s
- Cal. 40 / Cal. 38 Special
- Splinter protection according to STANAG 1.1g

MODULAR SYSTEM

EIBENHOLZ

Modular design

Our modular clothing system makes it possible to upgrade clothing from cut and stab protection to bullet resistant as required.

1.

- Standardised pockets in the chest and back area for the certified bullet resistant patches

2.

- Protects or makes open bite wounds from animals and humans more difficult due to the high robustness of the textile
- Abrasion-resistant, extremely rip-resistant, but still breathable
- Makes cuts caused by sharp objects in the event of accidents or attacks with knife blades more difficult

3.

- Puncture resistance approx. 800N
- Very light + flexible (similar to cotton fabric)
- Pleasantly cooling and 100% scratch-free feel
- Protects or makes it more difficult for blunt and dangerous everyday objects and utensils that can be used for stabbing to penetrate

4.

- Sleeves 10% longer in the wrist area to protect the wrists
- Abrasion resistant, extremely rip resistant, but still breathable

COLLECTION

EIBENHOLZ

Pullover

Our hoodies, zips and jumpers made from high-quality cotton in a casual style are fully finished with our Full Cut Protection textile. Each product also has internal pockets to hold the protection systems.
