# Delivering Complex Industrial Solutions for Global Innovators

## Your Global Manufacturing Partner

Meelup Systems was founded with a clear mission: to be the trusted global contract manufacturer for industrial electro-mechanical equipment. We specialize in helping universities, spin-outs, and niche firms navigate the complexities of bringing innovation to life in highly regulated markets.

## Western Standards, Indian Efficiency

Our Western Design and Manufacturing Philosophy blends first-world engineering practices with the cost advantages of our Indian base. From quality control to project transparency, we deliver the standards expected by clients across Australia, Europe, and North America.

## Strategic Facility, Global Reach

Based in Chennai, our advanced facility is equipped with modern technology and a highly skilled, English-speaking workforce. We emphasize continuous improvement, robust QA systems, and a safe, efficient production environment—ideal for export-grade manufacturing.

## Reliable. Secure. Collaborative.

At Meelup, we're more than a supplier—we're your manufacturing extension. Through British-based contracts and IP security, we ensure confidentiality and trust. Together, let's transform your innovations into world-class, market-ready solutions.

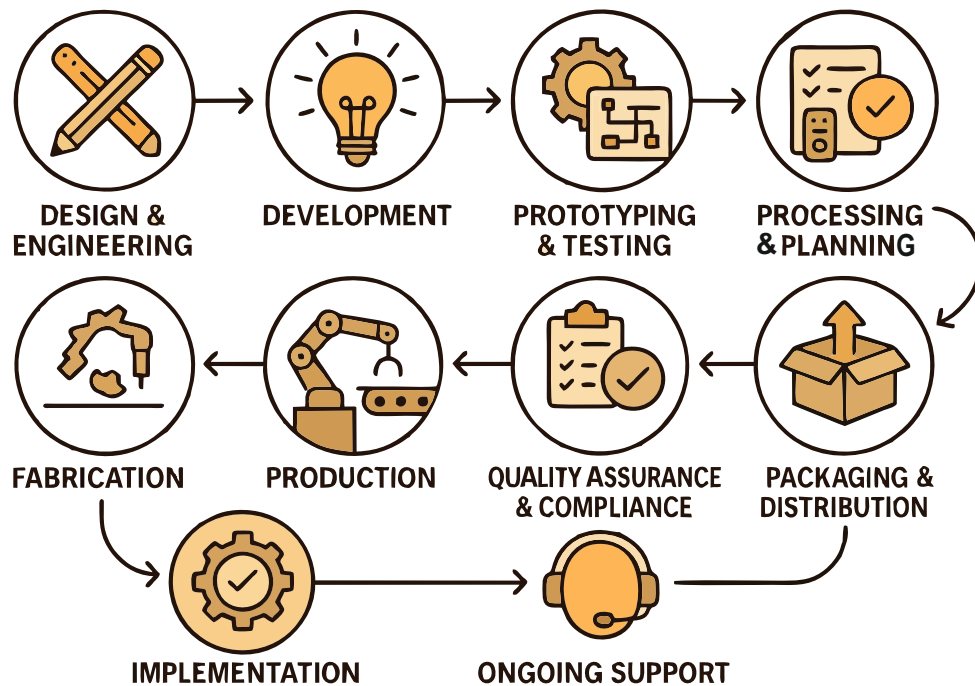

- **Precision Engineering**
- **Full-Lifecycle Manufacturing**
- **Global Support**

# Precision Engineering

## GLOBAL COLLABORATION

### What We Do

### Quality & IP Protection

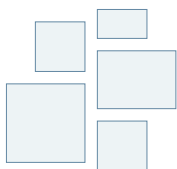

At Meelup Systems, quality isn't just a requirement—it's our culture. We deliver precision-engineered products that meet the exacting standards of international markets, backed by robust quality systems and process discipline.

### Our Quality Commitment

- ISO 9001:2015 certified QMS
- Compliance with ASME, EN, and client-specified codes
- Full adherence to global safety and environmental standards
- Dedicated QA team overseeing every stage of production

### Safeguarding Your Innovation

We protect your intellectual property with the same rigor we apply to manufacturing. All engagements are governed by British-based international legal frameworks—ensuring confidentiality, security, and peace of mind for our global partners.
