

2nd place | Readers' contest by the Messer Magazin 2025

LE BIJOU

EBONY

With a distinctly feminine elegance, this new creation in Art cutlery stands out for its delicate and refined design. Inspired by the idea of a three-gold ring, the knife features a unique tricolored alloy of brass, stainless steel and copper.

The delicacy and beauty of handcrafted details

This 12 cm piece is crafted with two golden brass bolsters and two rosy copper plates, finely handcarved by our cutlers. At the center, the iconic Laguiole bee dons one of its most beautiful dresses, featuring magnificent engraving both subtle and textured, allowing the light to reveal every detail.

Extending from the handle, the spring is delicately handcarved with meticulous attention to detail. Elegant symmetrical curves blend with charming floral patterns, while finely engraved small beads adorn the spring, sparkling like diamonds.

Every aspect of the 'Bijou' knife has been created with great care and precision, reflecting the dedication and passion of our cutlers.
