

# **Software Supply Chain Security**

GlobalDots helps DevOps & security leaders navigate in today's quickly evolving innovation & threat landscape.

We explore web & cloud innovation and implement cutting edge solutions to enhance your security posture, for efficient, growth ready infrastructure.

Innovate your software supply chain to reduce risks. Automatically block threats and ensure workload integrity from one central location.

### We see the challenges DevSecOps often encounter:

- Identify risks across the entire software supply chain
- Pinpoint critical code flaws
- Get development to fix them

All that without slowing down delivery timelines in today's demanding business environment.

### **Utilize GlobalDots' Curated Solution** to Release Secure Products With Confidence

- Remediate risks based on business priority and context
- Easily fix vulnerabilities based on automatic triage and best practice recommendations
- Solution Enforce security policies and prevent new attack types based on proprietary research and threat intel
- Automate workflows, tickets, alerts, and remediation

### **DevSecOps solution trusted by the most innovative** companies in the world

From the moment we started to work "with the OX Security platform, we got end-to-end visibility into the entire software development supply chain. We could quickly handle security issues that were consolidated and prioritized based on our environment."

## **Code To Cloud Security**

#### **Discover** Manage your findings from a

single location

#### **Prioritize** Accurately resolve riskiest

issues firts

#### Secure Close Gaps in Security Tooling

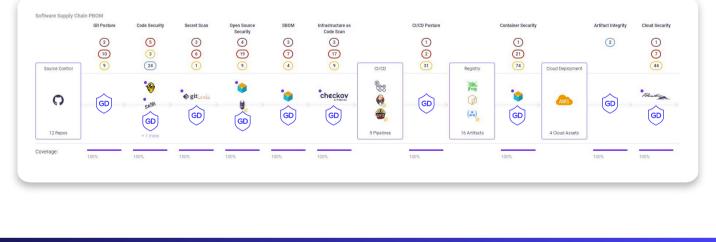

& coverage

#### **Automate** Simplify security workflows

and reduce manual operations

## Continuous software supply chain security from code to cloud

## GlobalDots is a +20-year global leader in cloud innovation, connecting over

**About Us** 

1,000 global businesses with the latest cloud and web technologies, such as Security, Web Performance, DevOps & Cloud Management, Corporate IT, and advanced AI/ML models.

Led by a team of seasoned engineers and architects, GlobalDots offers easy end-to-end innovation adoption, from consulting to ongoing professional services, proactively introducing newer and better solutions to support businesses in

With our implementation expertise and high-end professional services, we empower clients to streamline business processes and scale globally at ease.

maintaining a scalable, up-to-date technology posture in a quickly-changing world.
