# Metal in perfection

MEGA GOSSAU Ltd. is the Swiss specialist in metal die casting, leading in the field of customer-specific metal die casting solutions as well as door and window fittings.

With over 90 years of experience, around 120 employees and numerous agencies, the name MEGA stands for the highest quality, reliability and sustainability. The owner-managed company offers technical customer parts in particular by means of zinc die casting and aluminum die casting. Thanks to in-house production in Switzerland and long-standing, competent partners, MEGA GOSSAU AG offers efficient production processes with state-of-the-art production, environmental and controlling technologies.

# MEGA values

For us, fairness and respect are the basis of a successful cooperation. We work together with all stakeholders in a spirit of partnership and responsibility. We create room for creativity to unfold.

Through innovative thinking and action, we meet new market requirements in a timely manner. We continuously improve our processes and help our customers to find suitable solutions. We attach importance to personal diversity and encourage the will to perform.

The success of our customers, partners and employees also determines our success. We strive for a long-term relationship based on partnership. Through personal support we are able to support our customers from product development to application.

Our motivation is the enthusiasm for our daily work. We work with passion in the development of target-oriented solutions. Each individual is a specialist in his or her field and fully exploits his or her potential.

We operate an integrated and comprehensive quality management system, which is reflected in the quality of our services and products as well as in the cooperation with our partners and employees.

We take care of the environment and treat our resources with care. We use targeted measures to check compliance with regulations and ordinances. We promote environmental awareness through advice and training.

# Customized production

Special requirements require special solutions and a reliable outsourcing partner. MEGA offers you everything from a single source. From the implementation of your idea via tool construction, metal die casting, machining, grinding, polishing and surface treatment to component assembly.

## Engineering & Development

With many years of experience, we are happy to advise you on the development of your components.

## Toolmaking

Our competent staff supports you and develops high-precision die-casting and machining tools.

## Zinc die casting

We produce technical customer parts as well as our own products in various zinc alloys on state-of-the-art casting equipment.

## Aluminum die casting

With leading technology we cast your aluminum parts in close cooperation with our long-term partner in Taiwan.

## Mechanical processing

Our versatile equipped machining allows the optimal finishing from large series to single piece production.

## Surfaces

We offer you state-of-the-art surface treatment technologies for the final look of your castings.

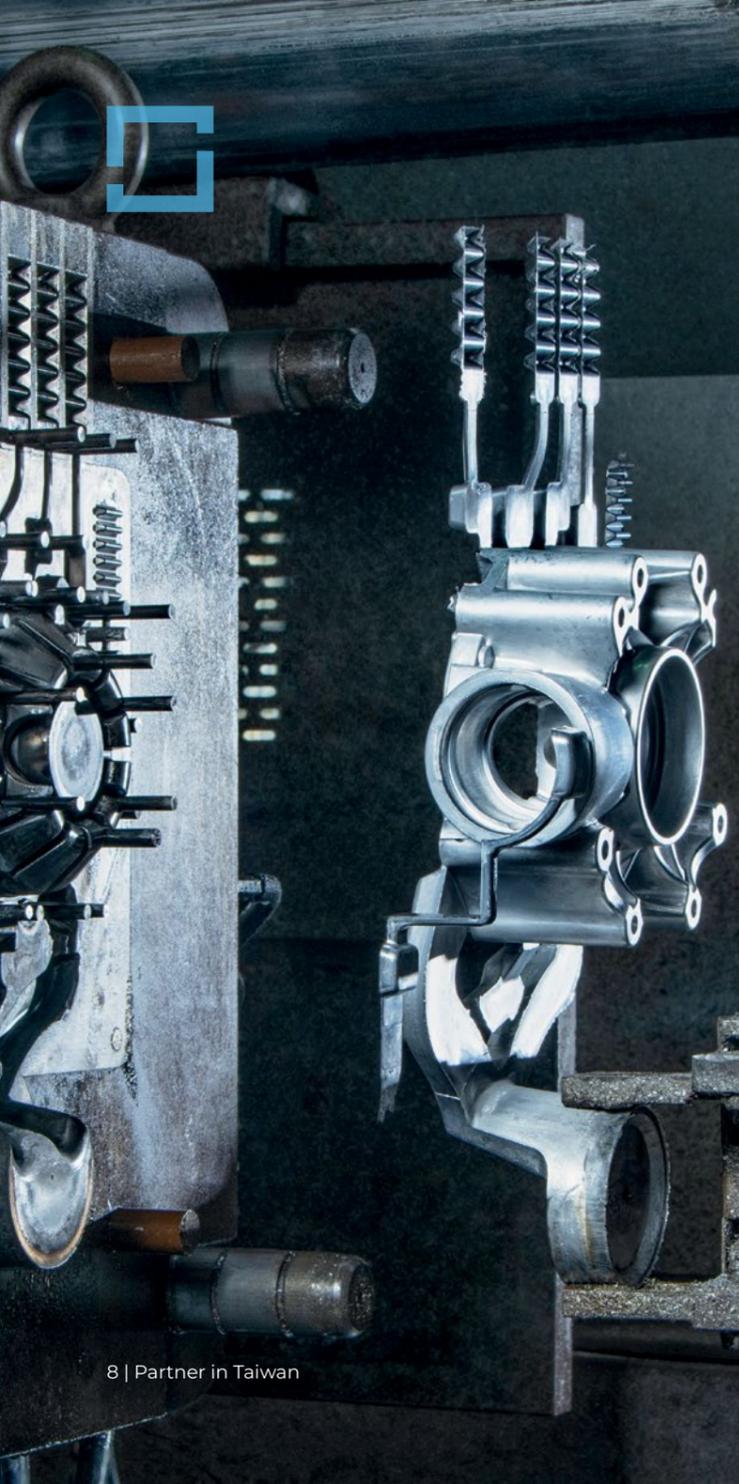

## Contract work

Are you looking for an addition to your existing process chain? Benefit from comprehensive value-added infrastructure of our subdivisions.

„We bring your wish perfectly into shape.“

# Partner in Taiwan

With our partner in Taiwan, we work closely together to develop your die cast parts in various aluminum alloys.

With 240 qualified employees, our long-standing partner manufactures die castings in small and large series for MEGA GOSSAU AG. The excellent references and satisfied customers underline the highest level of quality as well as the variety of possibilities.

Benefit from our know-how and one contact person in Switzerland. We take care of all technical and administrative clarifications and processes for you.

# Passionate and sustainable

MEGA GOSSAU AG combines the highest quality, efficient processes and sustainable management - with success.

Total Quality is not just a buzzword for MEGA, it is part of the company DNA. This is reflected in the high quality of products and services, in the cooperation with partners and employees and in the ISO certificate 9001:2015.

MEGA attaches great importance to responsibility: conservation of resources, respectful interaction, continuous improvement of processes, and commitment to charitable organizations and projects in the region.

# You have the product We have the solution

## We offer everything from a single source

From the implementation of your idea via tool construction, die casting, machining, grinding, polishing and surface treatment to assembly.

## Highest quality

We operate and maintain a holistic and comprehensive quality management system in accordance with the Total Quality Management principle.

## Individual die casting solutions

No matter what project you would like to implement, we manufacture die-cast parts individually according to your requirements.

## Close cooperation

We focus on our customers and adapt to their needs and expectations.

## Internal and external solutions

With our versatile and modern machinery and our long-standing partners, we are optimally positioned.

## Individual support

Our qualified team takes feedback seriously and gets the best out of it for our customers.
