

BRAZING FILLER METALS

Fluxcoated rods
Boric acid free

Deep Know-How

As a leader manufacturer of soldering and brazing consumables, Saldflux offers a brazing solution based on 35 years of industrial experience, tried and tested processes and method

Saldflux Srl manufactures a wide range of Fluxcoated rods without SVHC (Substances Of Very High Concern), according the European CLP Legislation, Acid boric Free and oderless. We developed 2 types of coating:

FLUXALLOY® for maintenance. It is flexible and easy to handle. SALDFLOW® for production lines and semiautomatic brazing with low binder contain.

We supply fluxcoated rods in different coating size per each bare rods diameter, because the needs related to their use are very different depending on the different application sectors.

Who make maintenance has different needs from who braze in workshop or in line of production (HVAC e.g.).

	STANDARD COATING TYPE (STD)	REDUCED COATING (RD)	VERY REDUCED COATING (RR)	SUPER REDUCED COATING (SR)
FLUXALLOY®	✓	✓	✓	✓
SALDFLOW®	✓	✓	✓	✓

- Boric Acid Free
- Borax free
- Partly flexible
- No ADR classification
- No spalding and spurting of the coated flux
- wider fluxing activity range
- excellent flowing carachteristic
- easy removal of fluxes residues
- odorless
