**INNOVATIVE SOLUTIONS  
PROVIDER**

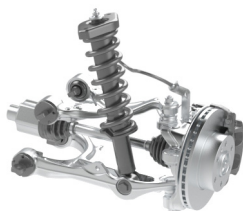

## OUR SOLUTIONS FOR AUTOMOTIVE

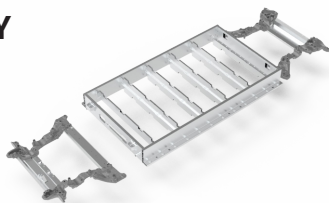

### CHASSIS & SUSPENSION

Suspension corners  
Knuckles  
Damperforks & yokes  
Control arms  
Clevis  
Braking disc

### STRUCTURAL & BATTERY

Crash protection for batteries  
Complex sub-assemblies  
Window frames  
Pillars  
Battery packs

### E-POWERTRAIN

e-Motor housing integrating cooling system  
Engine brackets  
Air pipes

## ABOUT US

Since its creation in 1962, Saint Jean Industries is specialized and recognized in the engineering and manufacturing of aluminium components for automotive.

Our know-how and our different processes enables us to offer turnkey solutions, from specification to production.
