

PRESS RELEASE May 1, 2026
SYMPPIIS International Ltd.
For immediate release May 1, 2026

SYMPPIIS INTRODUCES THE MARKET'S FIRST FOOD-GRADE CHEW TOY FOR DOGS AND THE FIRST 3-IN-1 SUMMER PRODUCT LINE THAT CALMS, CARES, AND REPELS AT THE INTERZOO 2026 EXHIBITION.

INTERZOO 2026 is the world's leading trade fair for the pet industry, held biennially in Nuremberg, Germany. This year, the event takes place from May 12th to 15th. SYMPPIIS will showcase two distinct product lines at the exhibition:

1. **GOLDBONE – The First FOOD-GRADE chew toy.** The first durable chew toy for dogs that is uniquely manufactured to food-grade standards in accordance with the European Union's rigorous quality regulations. The product is NOT manufactured merely to toy industry standards.
2. **Summer Products: Summer Collar®, Summer Spot-on, and Summer Spray.** The first 3-in-1 product range for dogs and cats where a single product calms, cares for the skin, and repels ticks. The efficacy is based on natural ingredients approved/permited within the EU. Most significantly, the repelling effect has been proven through **IN VIVO** studies (conducted in natural operating conditions), as **IN VITRO** studies (laboratory tests) often yield misleading results regarding product effectiveness. Naturally, it has been ensured that the products do not irritate the skin, and the collars are free from neurotoxic phthalates.

Welcome to our booth: **Hall 3C / Booth 3C-739**. We also invite you to visit our product presentation at the **Sustainability Innovation Area, booth S19**. You will find it marked by a sparkling, large "golden" bone.

ONE TREASURE IS WAITING TO BE FOUND.
