COOKIE FACTORY

We produce in Italy cookies for dogs and snacks for dogs and cats.

All our products are made with a short list of ingredients:

a few, premium grade ingredients.

The use of **selected raw materials**, by **cutting-edge plants**, through a **constant research** enable us to obtain **high-quality products** in respect of the **health of dogs and cats.**

We are **authorised by the Ministry of Agriculture** to produce vegetable and meat cookies and snacks for dogs and cats.

We use **raw materials** for both human and zootechnical uses, and they are all **strictly certified and traceable.**

PLANT

The production takes place in our plant in Barbarano Vicentino (Vicenza). The production cycle is **highly automated** and guarantees **maximum hygiene** of the product. After the first phase of **mixing the ingredients**, the product passes through **cylinders to obtain the desired shape**.

We have four production lines:

- Two **rotary production lines**;
- One **tunnel oven** for continuous production;
- One **dropping machine**.

OVEN

TUNNEL OVEN

DROPPING MACHINE

After **baking in the oven** and **cooling**, the product is immediately **packaged** to maintain the **organoleptic properties**.

Three packaging lines are active, capable of **packing cookies** ranging from **5 g up to 5 kg**.

PACKAGING LINE

DOG COOKIES

VEGETABLE COOKIES

● Basic ingredients

We produce our cookies with a few controlled and high-quality ingredients: soft wheat flour, corn flour, vegetable oils, water.

WE NEVER USE SALT, SUGAR, CHEMICAL ADDITIVES OR PRESERVATIVES.

COOKIES WITH MEAT

● Basic ingredients

We produce our cookies with a few controlled and high-quality ingredients: soft wheat flour, corn flour, vegetable oils, dehydrated meat, water.

WE NEVER USE SALT, SUGAR, CHEMICAL ADDITIVES OR PRESERVATIVES.

Supplements

We can enrich our cookies with **dehydrated fruit and vegetables, legume flour, fruit and vegetable puree, herbs, flowers, flavours and colours that are specifically allowed** in the production of food for dogs and cats.

If required by the customer, **we can enrich the cookies with mineral and vitamin complexes.**

SHAPES

We have created **many cylinders** for the production of our cookies.
We can design other cylinders with **specific shapes required by our customers.**

SNACKS FOR DOGS & CATS

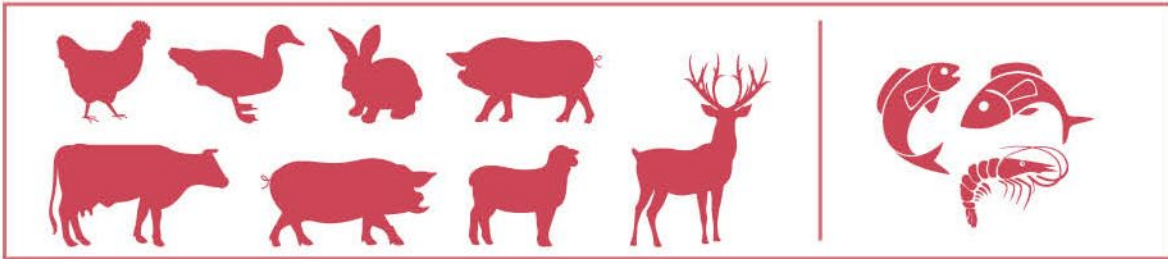

Base ingredients

Our snacks are produced with **one animal protein source** and a short list of ingredients: animal protein, soft wheat flour, vegetable oil, corn starch, water.

Animal proteins

We use the following **dehydrated animal proteins**:

Chicken, Beef, Lamb, Duck, Rabbit, Venison, Wild Boar, Pork, Tuna, Salmon and Shrimps.

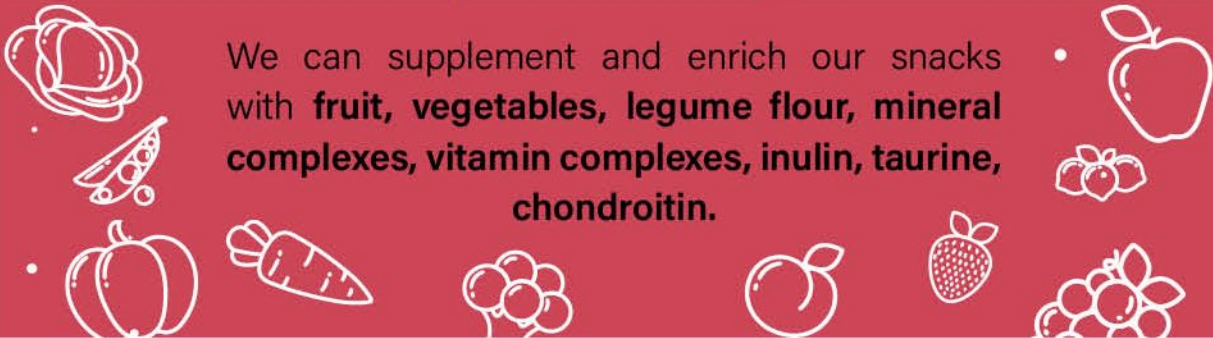

We can produce **snacks with 4% to 90% animal protein** according to the customer's needs.

WE NEVER USE SALT, SUGAR, CHEMICAL ADDITIVES, COLOURINGS AND PRESERVATIVES.

Supplements

We can supplement and enrich our snacks with **fruit, vegetables, legume flour, mineral complexes, vitamin complexes, inulin, taurine, chondroitin.**

SHAPES

We shape our snacks through different cylinders, such as **small bone and small and average cube**. We can make cylinders with specific shapes as required by our customers.

PACKAGING AND WEIGHTS

We can package our snacks in **bags from 5 grams**.

We assist our customer throughout all the **phases of packaging design and realization** by making available our **technical and graphic departments**.

In addition, bags can be covered by cardboard riders or boxed too.

Bag from 5g to 1kg

Small bag of 5g

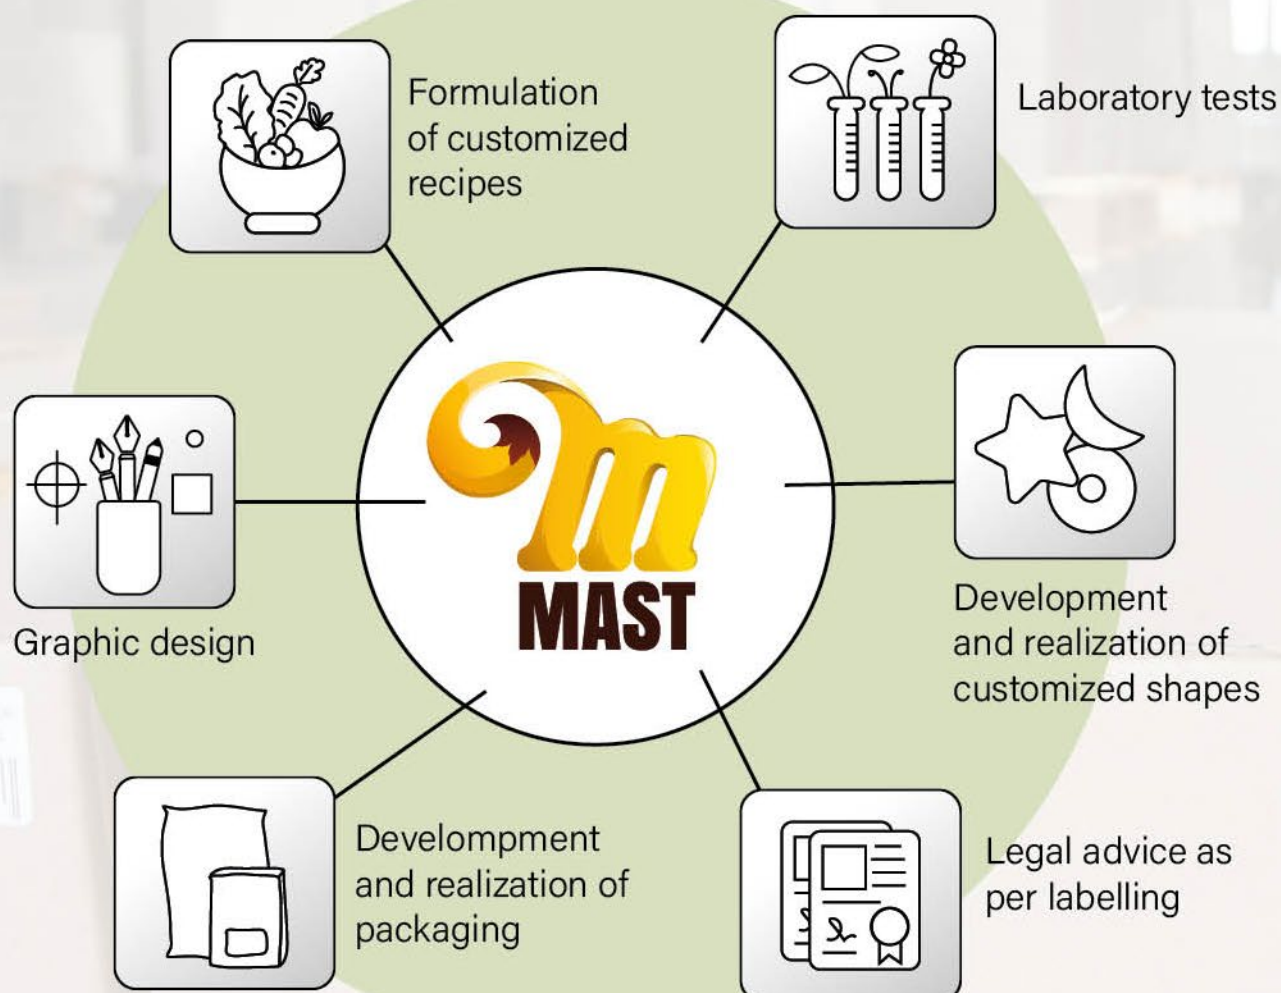

Doypack pouch, 50 g to 150 g

OUR SERVICES

Our customers can **customize their product** by choosing it among a wide range of cookies and snacks or by deciding to **create a new, exclusive product**.

WE ASSIST OUR CUSTOMERS BY TAKING CARE OF ALL THE ASPECTS OF THE PROJECT:
