

Silicone Pressure Rollers

Whether you want to apply labels to uneven surfaces, fix products on ascending conveyor lines or optimize filleting processes in the food industry: Silicone pressure rollers by Esband are your ideal solution! They can be customized to your needs and are also suitable for sensitive goods (no-crush).

Advantages

- FDA compliant material
- Heat resistance up to +180°C*
- Easy to clean / dirt-repellent
- High coefficient of friction
- Customized cutouts and dimensions possible
- Small-batch productions without high costs for castings possible

*depending on used material
