Company Profile

Qiang Xin Stainless Steel Fastener was established in Zhongshan City in 2007. We built another new factory in Yangjiang City in 2018. Our monthly output of stainless steel screws are about 100 million pieces which weigh around 350 tons. We mainly export to Japan ,Europe ,Korea ,Australia and America.

Our major materials put into production are INOX A2 (304), A4 (316), C1 (410), C3 (431), F1 (430), D4 (S32304), D6 (S32205), A3 (321), D8 (S32750), 305, 130M, 630 and 550 which is a kind of high strength and good anti-rust stainless steel material.

Products range mainly include as below :

1. Self-drilling screw (diameter from ST2.9~8.0mm, length from 9.5~400mm)
2. Wood screw (diameter from Φ 3~12mm, length from 6~1000mm)
3. Concrete screw (diameter from Φ 5~12.5mm, length from 40~500mm)
4. Tapping Screw (diameter from ST2.2~9.5mm, length from 3~1000mm)
5. Machine screw (diameter from M1.6~16mm, length from 3~1000mm)
6. Rivet (diameter from Φ 1.0~20mm, length from 3~400mm)

Stainless steel A2 or A4 screws and rivets manufactured by us can pass neutral 5% salt spraying test of 10,000 hours at best without rust after passivation treatment. C1, C3 or 550 material can achieve the tensile strength of 1300N/mm² at best.

Our products are widely used in so many industries . For example,window and door,wood floor , housing,sanitary ware,home appliance,furniture,telecommunication,shipbuilding,pump and valve , chemical engineering,electronics, electromechanical ,etc.
