

Sunnyway Technology

GLOBAL IoT ANTENNA SUPPLIER

Connectivity Creates Possibilities

MISSION

Going the extra mile in serving our clients

VALUES

Sincerity . Unity . Innovation . Diligence

VISION

Striving to be a global leader in the IoT Antenna Industry

ABOUT US

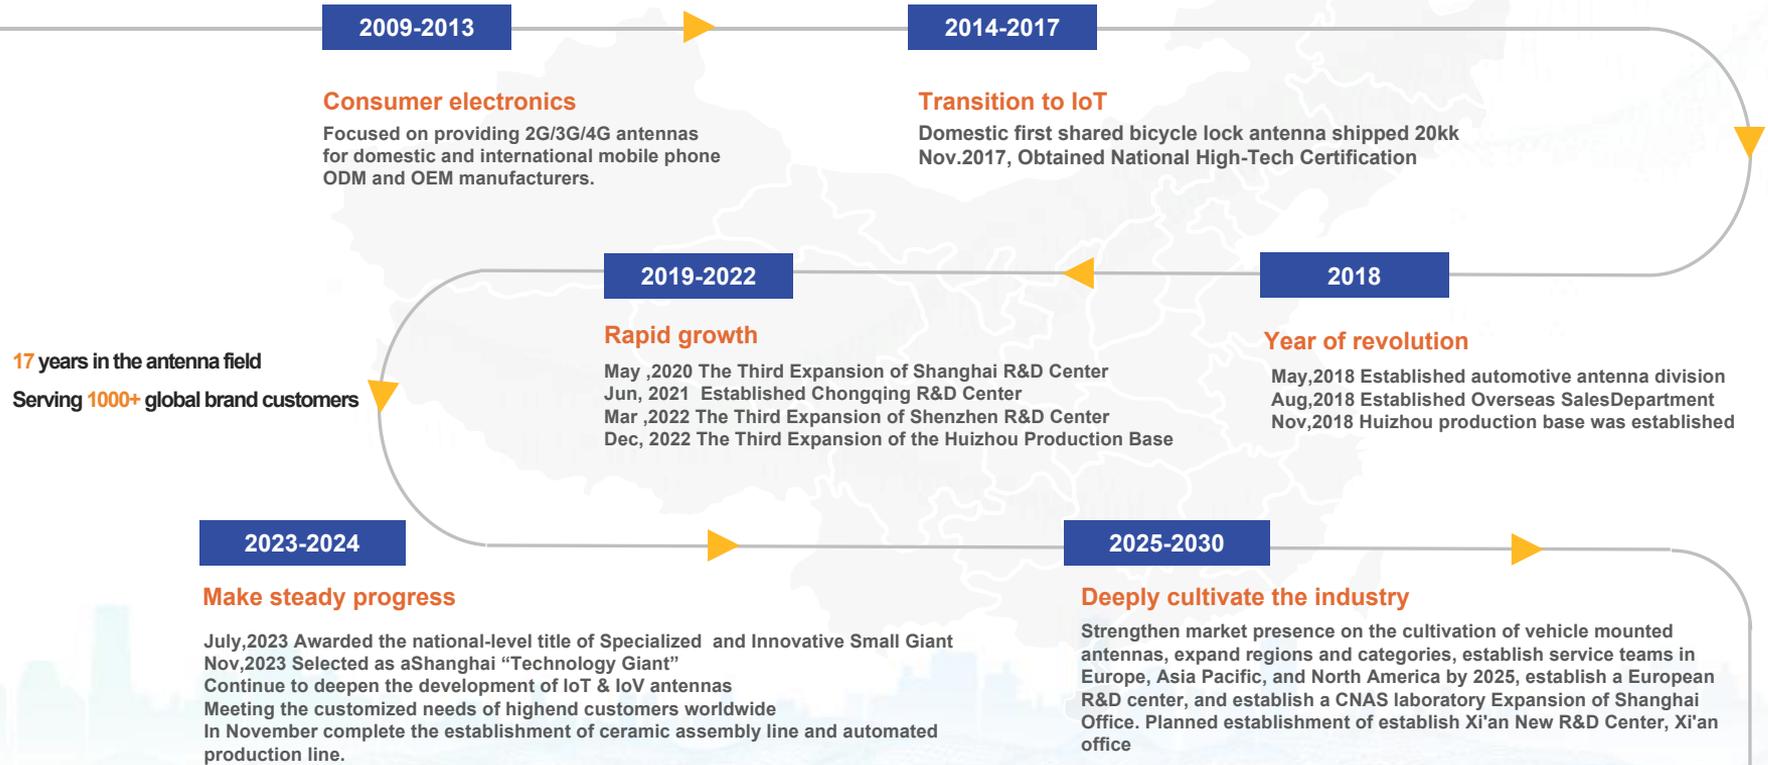

Company Profile

Founded in 2009, Sunnyway Technology has obtained the certificate of recognition of high-tech company issued by the State and Shanghai government. Since its establishment, Sunnyway Technology has always been focused on the field of antennas.

We have established R&D centers in Shanghai, Shenzhen, Xian, Chongqing and Istanbul, equipped with more than 13 OTA chambers and nearly 120 RF test equipment. At the Huizhou production base, we rely on a professional team and MES management system to ensure full traceability, and a 12,000-level dust-free workshop and SMT production line to ensure product reliability.

Development history

Enterprise Architecture System

(HQ) Shanghai R&D Center
Established in **2009**
Covers over **2000 m²**
5 OTA chambers
55+ R&D engineers
50+ R&D Equipment

Shenzhen R&D Center
Established in **2010**
Covers over **2000 m²**
5 OTA chambers
44+ R&D Engineers
50+ R&D Equipment

Chongqing R&D Center
Established in **2021**
Covers over **600 m²**
2 OTA chambers
10+ R&D engineers
15+ R&D Equipment

Xi'an R&D Center
Established in **2025**
Covers over **200 m²**
1 OTA chambers
4+ R&D engineers
5+ R&D Equipment

Turkey R&D Center
It is expected to be established in **May 2026**.
Located in **Istanbul**.

Established in **2018**
Covers over **12000 m²**
8 Wire Stripping Machine
18 Assembly line
100 + Test Equipment
Dust-free SMT Workshop

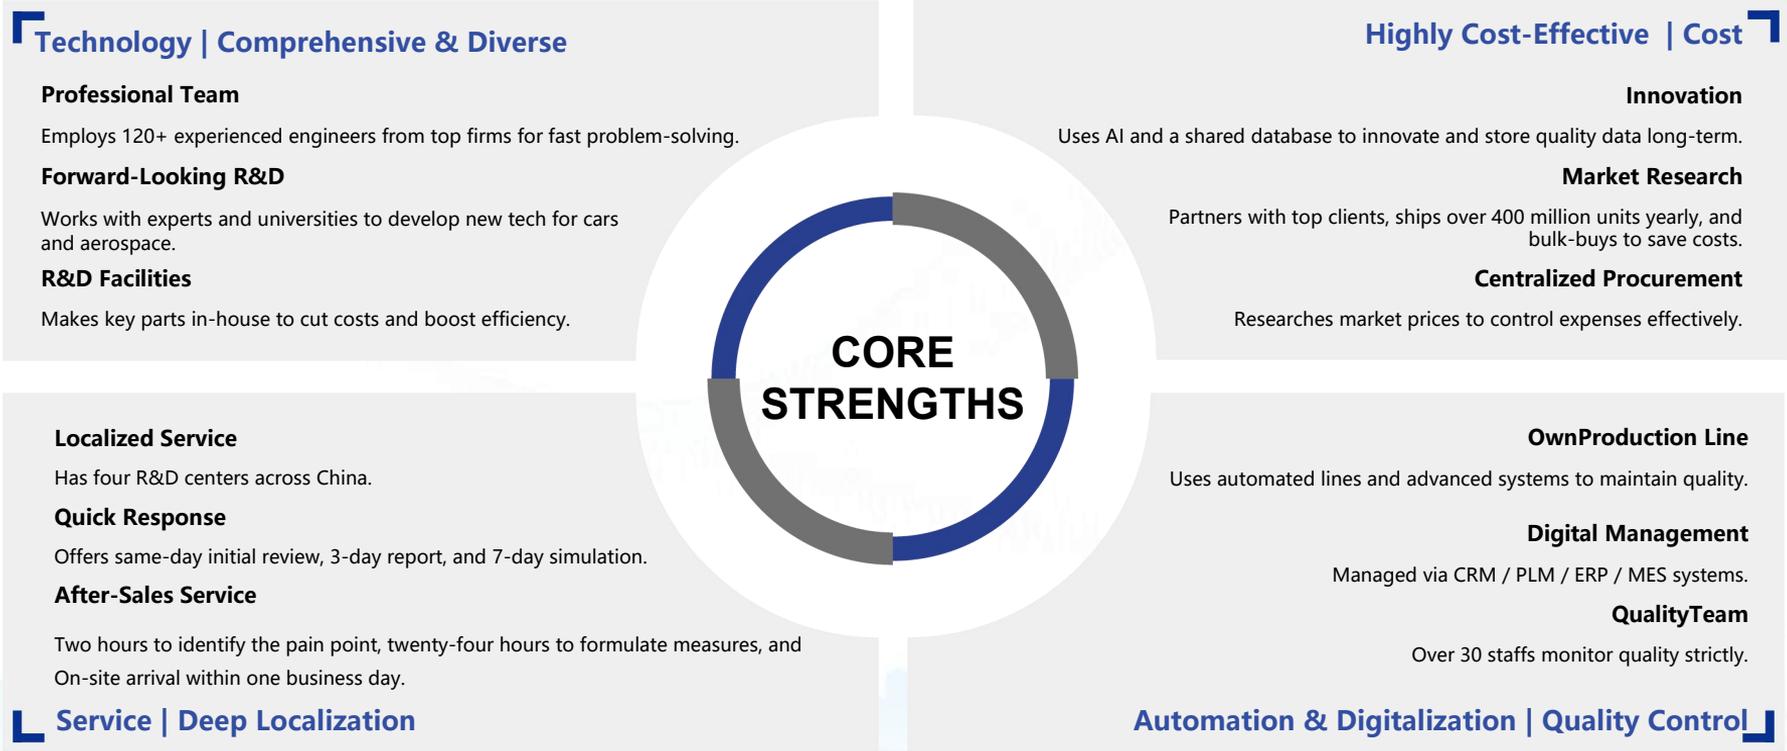

Established in **2018**
Serving **50+** countries in Europe, the Americas and South-East Asia with localised services and timely response to partners

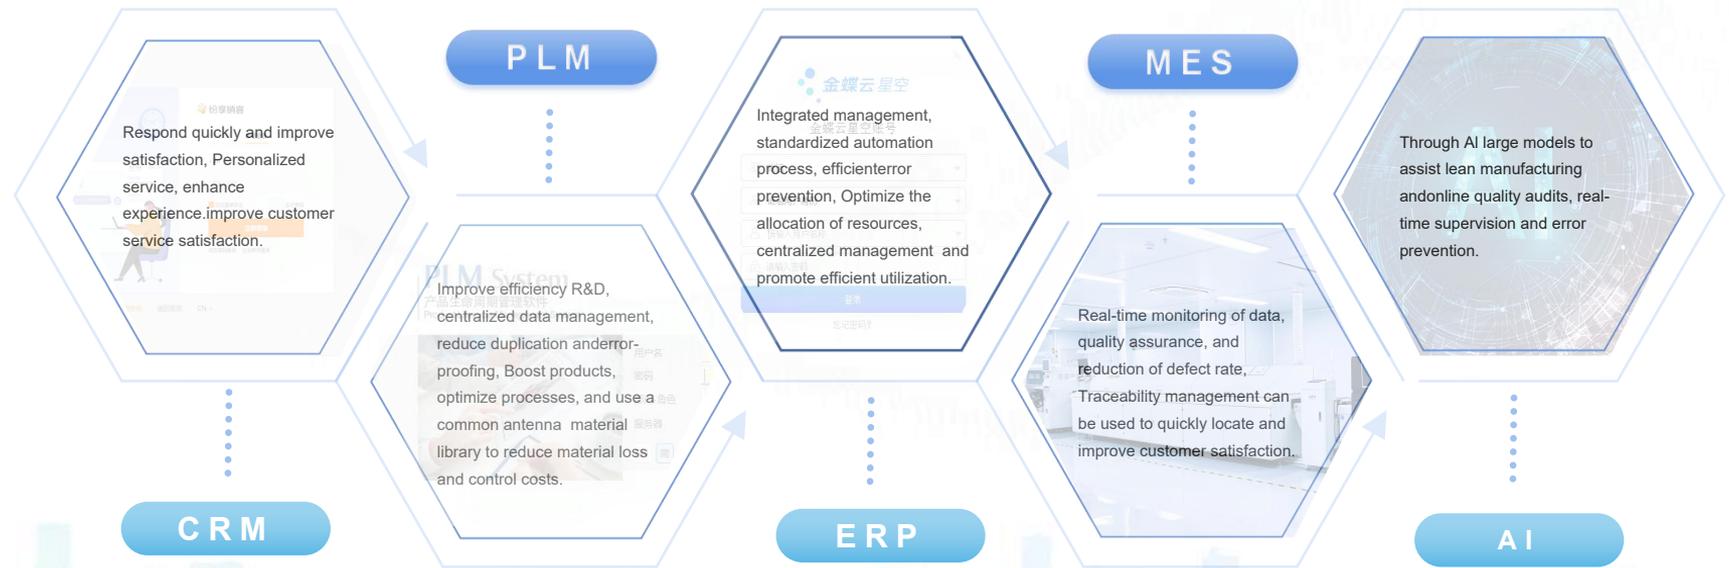

Established in **1999**
Covers over **25000 m²**
Provide stable supply for international customers for a long time

Advantages Introduction

Digital Management

Reduce costs and increase efficiency

Certifications

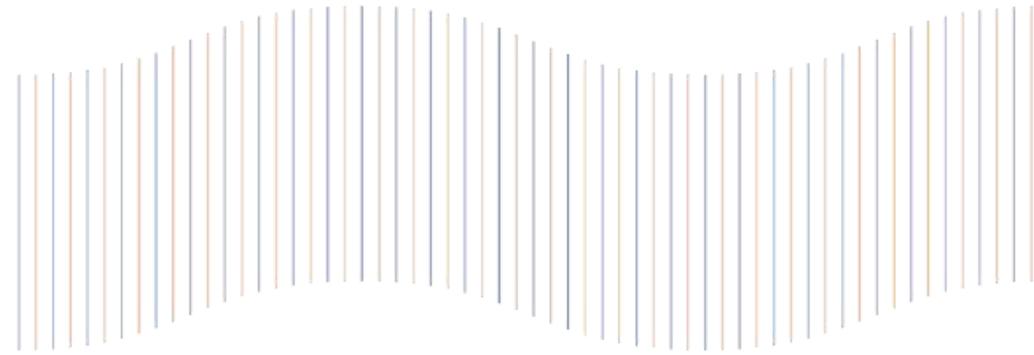

Acquired IATF16949, ISO14001, ISO9001, ISO45001, Tisax

DUN&BRADSTREET

Certificates National Specialized, Specialized & "Small Giant" & National High-Tech Enterprise. Invention patents: 10 Utility Model Patents: 200+ Passed the ecovadis Social responsibility rating.

R&D STRENGTH

Our Teams

Over 400 employees

The average length of service is about 5 years

10%+ of employees have 10+ years of service

Engineering Team Composition

Position	Numbers
Simulation Engineer	10
Electronics Engineer	8
RF Engineer (5G/BLE/UWB...)	46
RTK GNSS Engineer	15
NFC Antenna Engineer	8
Structural Engineer	18
Process Engineer	8
Test Engineer	12
Total	125

- 10 years+ experience engineer 23%
- 5-10 years+ experience engineer 45%
- 3-5 years+ experience engineer 32%

Equipments

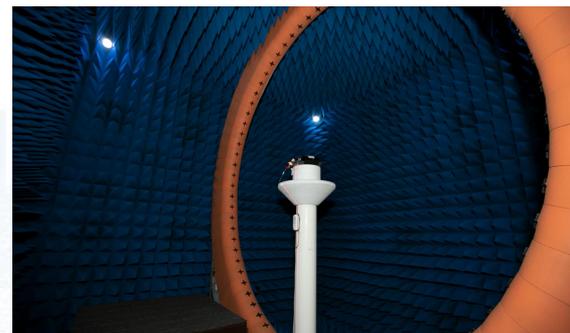

Invest \$30 million+
in R&D equipment

Equipment	Total	Shanghai	Shenzhen	Chongqing	Xian
OTA Chamber	13	5	5	2	1
Full-Function 5G Communication Test Set (SP9500-CTS)	6	2	2	1	1
Wideband Radio Communication Tester (CMW500&8820)	15	6	6	2	1
Wireless Communications Test Set(8960)	9	4	4	1	
Communication Test Set for IoT Terminals (SP8315)	3	1	1	1	
Vector Network Analyzer (ZND / ZVB / E5062A / E5071C / 5071B/)	48	22	22	3	1
Vector Network Analyzer (TRANSCOM / ITENEST)	24	10	11	2	1
OTA Head Hands / Cochlea / Arm	5	2	2	1	
GPS / WiFi Active Tester	8	3	3	2	
ESD Static Electricity Tester	3	1	1	1	
Near Field Interference Scanning	3	1	1	1	
NFC TEST SYSTEM	2	2			
SAR TEST SYSTEM	1			1	
SIMULATION SOFTWARE WORKSTATIONS	8	5	3
