WORKING FOR YOU SINCE 1974

Salvador Escoda S.A., a company founded in 1974 out of a dream and dedication of its founder, Mr. Salvador Escoda. As a result of continuous hard work and by staying loyal to the core values that give identity to the company, we have rapidly grown to become one of the leading firms in our industry in the Spanish market and a strong player in the European market.

Salvador Escoda currently employs more than 750 workers and has a portfolio of +35,000 customers. The company is committed to delivering high value to its customers by offering them the best quality/price ratio products endorsed with outstanding service, warranty and technical service. The company is structured in different Divisions formed by teams of highly qualified engineers and technicians who provide our clients with technical advice and facilitate their success on their projects and installations.

The company is invested in an expansion project with the opening of new stores in Spain and the consolidation of processes and systems in all business areas. As a result, we are proud to offer a portfolio of +140,000 products, most of them in permanent stock. In addition, we have obtained exclusive distribution agreements with leading manufacturers in the industry. With more than 20 owned brands spearheaded by our international brand Mundoclima®, Salvador Escoda is the most complete distributor providing a solution for any type of installation: residential, commercial or industrial.
